ENTHUSIASTIC MEETING;
Good Support Promised Track Team. Collect Sixty Dollars For Band.

Judging by the enthusiasm aroused yesterday at the mass meeting in Huntington Hall called by Dr. Pritchett, the track team will have the hearty support of the whole Institute, which now meet Brown at the field Saturday.

The meeting was called to order by Capt. Lenihan, '07. After calling attention to the probable closeness of the meet and the necessity for the best support from the student body, he introduced President Pritchett as the first speaker. Dr. Pritchett was greeted with a great show of enthusiasm and it was some time before he could begin. He said in part:

"There are two things that always make me deeply moved. One is when I return to Boston to have you all greet me so cordially. The other is the joy on your faces, reflecting all the human energy and spirit here represented, and think of all my pleasant associations here with you. It is with great regret that I regard my parting - a parting with all the dear and precious things of my life during the last seven years."

The President went on to call attention to the hearty interest he had always taken in athletics at the Institute, and in particular to the Brown meet he said, "In going into this coming meet, everyone should be true sport and enthusiastic. We should go into it with a common love of our Alma Mater, and with the maximum of faith, hope, and enthusiasm that all united can give.

After telling a story about the Technology visit of Panama Prexy, Pritchett concluded: "Now we are going out to meet Brown on Saturday, and I trust that the experiments get together and do what they can do - take the flag of Tech, and put it up."

Dean Burton spoke next on the value of a large attendance at the meets and the universal support of the fellows.

J. A. Rockwell, '92, who is on the Advisory Council, spoke of athletics at the Institute in the past and urged everyone to take a hearty interest in the best track team that Technology has for years.

Jenkins, '09, then led the meeting in singing: "The Cardinal and the Dead Old M. I. T." Allen then said that a band had been engaged for the meet Saturday and invited everybody to contribute as they went out of the door. Over sixty dollars was collected in this manner.

NO REVIEW HELD.

The M. I. T. Battalion was not inspected Wednesday, since Capt. Meacham, 24th Infantry, the government inspector from Washington, was unable to perform the duty. It is probable that if Capt. Lenihan does not come on Wednesday, May 15, the inspection will consist merely in an examination of the roster, records, and accouterments of the Battalion.

Closest Meet of Season Expected.—Tech's Chances For Victory Good.—Every Man Wanted to Cheer.

Brown and Technology meet Saturday in what promises to be the closest and most exciting contest of the 1907 track season. Judging from the previous performances of the contestants, Tech's chances for victory are good, even in spite of the loss to the team of Gould and Schobinger. The former has had to give up track work and the latter is debared by the one year rule.

Brown is strongest in the sprints, the high jump, the pole vault, and the two mile, while Technology excels in the middle distances, the hurdles and the remaining field events.

In the 100 yard dash Captains Richards and Gram should run away with the first two places, while Mayhew of Brown should get third. The first two places in the 220 will in all probability go to the same men, while Front of Brown should be close behind.

In the performance, Blackham at the Penn Relay Gauges, and Grit of Gram in the quarter-mile at the Maine meet, running in 52.5 seconds on a slow track, seem to assure to Tech the first two places in that event. Scott and Honos are Brown's most likely entries.

CAPTAIN THURLOW.

Tech is strongest in the sprints, the high jump, the pole vault, and the two mile, while Brown excels in the middle distances, the hurdles and the remaining field events.

The tickets for the Tech Pops, which will come on Tuesday evening, June 4th, are now on sale. The arrangements for the concert this year are the same as usual, the Commencement Day Commis- sion having bought out the whole house, both floor and balcony, for Tech. These tickets are to be sold among the Alumni and undergraduates. As the number of Alumni in town at this time is always large on account of the large number of class reunions, the number of tickets that will be on sale for undergraduates is limited. What tickets there are for sale are in the hands of the following men, from whom they may be procured as long as they last: R. C. Albright, R. A. Packard, H. S. Winston, Kurt Vonneygut, E. B. Hutchison, J. H. Crittenden, and C. F. Abercrombie. Tickets are also on sale at the Cage.

The balcony seats will also be on sale for those who wish to take ladies, and may be obtained by application. Application blanks at the Cage on or after May 16.
