SPREAD HELD INDOORS.
Rain Forest Class Day Spread into Rogers Library. Day Successful.

For the second time in the history of class day at the Institute the class day spread was held indoors yesterday. The inclement weather precluded all possibility of having the spread on the lawn.

Members of the graduating class, mothers and fathers, sisters and sweethearts gathered yesterday at two o'clock in Huntington Hall to hear the addresses and laugh at the antics of the seniors.

Pres. Lawrence Allen opened the exercises with a short introductory speech, introduced Donald G. Robins, Class Historian and Statistician.

The class history and statistics were presented together in the form of a thesis. The thesis was prepared by students of the class, containing such tables as the faculty or students of the Class of 1897 could present to the younger class.

The first set was 'rettily played, certainly the most significant spiritual fact in the past 50 years of our history is the development of that vast, graduated, complex system of education whose sole purpose is to train the minds and characters of the young. For this end no sacrifice is too great, no legitimate undertaking too costly.

The second set was the feature of the day. It was a good match, interesting all the way, punctuated with some splendid rallies. Larned was the steadier and had more force, and his win was earned in straight sets.

Larned placed very accurately, using the ground stroke almost all the time. He was very sure on lob, and his only fault was an unnecessary fluctuation in the first set.

When he overcame this weakness Larned began to win. White's backhand was unreliable and his best shot was a deep drive off the forehand. This, when it was in, was as sure of the next, but it was too many times the case that it was not.

The first set was pretty close, and the men were even in the fifth game, when Larned broke through and won the white, for

INCREASES NOTED.

At the annual meeting of the directors of the Co-operative Society the treasurer's report for the year 1906-07 was presented, showing a larger increase in membership and receipts from sales in the various buildings.

This year the society has handed over $950 to the treasurer who has used it for scholarship and loan purposes. Sigo has gone to the regular scholarship fund, while the other $950 has been used as a part of so-called Hurst's fund.

This letter is a hand of money which Hurst has gathered together, the income from which is to be used to help students who, through no fault of their own, are unable to keep up their studies. It is a splendid endeavor on the part of the society.

The second seed was broken by Gram in the semi-final of the 320-yard dash when he defeated

()TECH WINS CHAMPIONSHIPS IN SINGLES AND DOUBLES

Singles in Intercollegiate matches go to J. I. B. Larned '08, and Doubles go to J. I. B. Larned '08, and W. B. Coffin '07. Exciting matches throughout.

Technology won both singles and doubles in the eighth annual New England Intercollegiate lawn tennis championships with J. I. B. Larned and W. B. Coffin as the Institute men to win all matches. Larned walked off with the singles, his preliminary matches coming easy, but in the finals he had to fight his opponent Bullord of Brown. Larned and Coffin won the doubles.

On the first day Larned in the singles made a good start winning from Thompson of Williams in a lively two-set match, and remoring Stearns of Dartmouth from the gring in two love sets. Larned met the Wesleyan tennis crack on the second day in a match that was the feature of the day. It was a good match, interesting all the way, punctuated with some splendid rallies. Larned was the steadier and had more force, and his win was earned in straight sets.

Larned placed very accurately, using the ground stroke almost all the time. He was very sure on lob, and his only fault was an unnecessary fluctuation in the first set.

When he overcame this weakness Larned began to win. White's backhand was unreliable and his best shot was a deep drive off the forehand. This, when it was in, was as sure of the next, but it was too many times the case that it was not.

The first set was pretty close, and the men were even in the fifth game, when Larned broke through and won the white, for.

BROKE TWO RECORDS.

Surprising all spectators, and breaking two out of the three records established at the New England Intercollegiates on May 29, the Tech track team secured fourth place in men's events. The first place, easily out-distancing Williams, her old rival, who finished fifth with only one record.

Dartmouth won the meet very comfortably with forty-seven points, while Brown and Amherst ran a very close race for second place, the former eventually winning out with twenty-eight and a half points against the twenty-seven scored by her rival.

Udall's score in the two-mile was the feature of the day. Starting in nineteenth place from the pole he was less in the crowd during the first quarter, while Gallup of Brown, who drew the pole, took the lead. By the half-mile mark was reached, Udall had drawn away from the crowd and opened a comfortable lead. At the end of the mile he had increased this to fifty yards, doing the first half of the distance in 4 min. 57 sec.

From then on he maintained this lead. All the athletic experts looked on incredulously, and marveled that a Tech man should be able to run such a race. The general opinion was that it would be impossible for him to hold the pace. Udall, however, only lengthened his stride and began to set a faster pace for the second half. Holding it to the end, and finishing with a splendid sprint sixty yards ahead of Gallup. The time was 9 min. 42-43 sec., clipping 9 sec. of the New England Intercollegiate record established by Gallup and Tech field two weeks previous. Greene of Brown was third and MacGregor of Tech was fourth place by a brilliant sprint at the finish.

The second seed was broken by Gram in the semi-final of the 320-yard dash when he defeated
