EXPLAINS PURPOSE.

(Continued from page 1.)

weeks in each year. A form has been
 chosen which is convenient to work with
 and which can be reproduced in a re-
 port. The reports thus give the student
 an official course scheme and are useful
 for transfer of work to another college
 as the time devoted to subjects is given
 in every case and permits of a compar-
 ison of the work with the other college.
 The back of the attendance card is for
 the permanent records of the school and
 the information is used to identify the
 student.

During the first ten days of the term
 the attendance cards are approved and
 the roll cards are checked with them.
 Those that are written for subjects
 which are not approved are conspicu-
 ously marked "not approved" and are
 sent to the instructors at the same time
 that the students are informed that they
 can not take the subject without re-
 ceiving permission from the Faculty.
 The roll cards for subjects which are ap-
 proved form a card catalog of the stu-
 dents in each subject. They are ar-
 ranged by sections in such as are given
 by more than one instructor. The rolls
 that are issued each month are made
 from this catalog. This is corrected for
 each action of the Faculty which admits
 or allows a student to drop a subject.
 This catalog which supplements the at-
 tendance card forms the basis for the
 lists which are sent to instructors for
 the informal and formal reports.

The address card is used for a card
 catalog of students. It is especially use-
 ful when telegrams and special delivery
 mail is received for students. It is also
 used for the many inquiries made for
 students at the Information Desk in
 the Registrar's office. Stencils used in
 the mailing department are made from
 these cards.

The Bursar's card is used by him in
 keeping records of the tuition fees, de-
 posits, etc.

New students are asked to fill out a
 card for the Alumni Advisory Council
 in order that they may be acquainted
 with the promising athletes and plan
 for various sports.

The Military Department requires first
 year students to fill out a card which is
 used for the records of the department
 and for organizing the cadet battalion.

While the mass of material may seem
 exceedingly large to the new man just
 from a preparatory school simplicity
 has not been forgotten. It is the val-
 uable co-operation of students that as-
 sists greatly in organizing the school
 promptly each term.

WALTER HUMPHREYS,
 Registrar.

LUNCH PRICES GO UP.

Both Tech Lunch Rooms Have to Meet
 Increase in Cost of Food.

In spite of the fact that it showed
 a deficit of \$400 at the end of last year,
 the Tech Union lunch room is to be
 run again this year on the same plan,
 with the exception that the prices will
 have to be raised owing to the increased
 cost of food. The lunch room in Pierce
 will also have to meet the increased cost
 of maintenance by an increase in prices.

Both lunch rooms will maintain the
 same high standard of quality of food
 that they have exhibited in past years.
 The difference between the two lies es-
 sentially in the fact that the Tech
 Union lunch room serves a regular
 course lunch, while the lunch room in
 Pierce caters more to those who desire
 single dishes. Both rooms have been
 popular and intend to serve the same
 quality of food that they have served
 in the past.

1907 MEN ENGAGED.

Prominent Tech Men Have Left to Take
 Good Positions.

Winsor Soule, '07, Course IV, is to
 marry Miss Judith Brasher of New
 York City on Oct. 19 at St. Mark's
 church in the Bowerie, New York City.

The engagement of Miss Bertha Muz-
 zey, daughter of Mrs. Helen Muzzey of
 Tilton, New Hampshire, to Mr. Lester
 W. Brock, '07, Course VI, has been an-
 nounced.

B. Edwin Hutchinson, '09, editor-in-
 chief of Technique, 1909, and editor of
 THE TECH, has resigned his positions
 and withdrawn from the Institute for
 two years. He is at present superin-
 tendent of an open hearth furnace at the
 steel works of the Grand Crossing Tack
 Company, Grand Crossing, Ill.

Carl G. Koppitz, '09, business man-
 ager of Technique 1909, has withdrawn
 from the Institute for one year to take
 up research work in the laboratories of
 the Westinghouse Company, New York.
 Mr. Koppitz is attempting to produce
 pure sodium from common salt by means
 of the electric furnace. He has so far
 been very successful.

Robert M. Keeney, '09, assistant man-
 ager of the Track Team and associate
 editor of Technique 1909, continues his
 course this fall at the Colorado School of
 Mines.

William A. Adams, '08, is to continue
 with the United States Coast and Geo-
 detic Survey. He is now stationed in
 Boston harbor.

William B. Given, '08, enters the Shef-
 field Scientific School at Yale this fall.
