Cooley the Only Man Who Shows Up for Practice.

Prospects for the cross country run with Harvard are not satisfactory. Since the trials which were held last week very few of the men have been out. The only one who is working steadily is Cooley, of the Freshman Class.

The Captain of the team and its most prominent member, he is the only one, a single one, Cooley, of the Freshman Class, reported at the Field.

While Cooley was running in the past he has shown a marked ability to do any work this season, and attain with the material at hand a good team might be developed by hard training. It will be almost impossible for Tech to make a race of 4 1/2 miles in all.

Coach Kanaly is very apprehensive of the Harvard men in this race. The Harvard trials which took place Monday afternoon this week were extremely good, and showed a high class in the work of the whole team.

While Tech did very well in her trials over the week none of the others had anything like anything to nothing or to keep in condition. Capt. Howland, Ellis, Batchelder and some extremely good, and showed a high class quality in the work of the whole team.
