From time to time there has also been criticism of the financial policy of the show. The policy in the past has been to meet any and all the expenses that the management could formulate. It cannot be expected that purely experimental staff-managers can lay down as wise a financial policy as that of proven experience.

The suggested committee, modified as it probably will be after discussion, will undoubtedly relieve the committee of much responsibility and relieve them of unwarranted responsibility.

For the alumni member of this committee THE TECH wishes to suggest M. L. Emerson 1903, general manager in 1903, and connected with the show during his stay at the Institute. He is in a position to give the time and good advice to the show.
