TO MEET HANOVER TEAM TomORROW.
DARTMOUTH GAME will BE fast.
Both Teams to Have Five Veterans in Lineup.

Technology seeds Dartmouth tomorrow at basket ball in one of the most important games of the season. The games are between the Hanover and the Dartmouth Gyns. The game Monday was a memorable win for Dartmouth, which indicates that Tech has a very strong team this season, but the game cannot be taken as any final criterion of the year.

Dartmouth has been a small slow in starting ball work this season, and yet the team has not been set in very good shape. The individual work has been back up and away, and the team work seems to be as yet undeveloped. There is a great deal of promise in the team, and the competition for the championship this year has been keen. Coach E. Lake is in his prime and he has had the team in hand for the last two years. Now is the time for his results to be seen.

Changes in the Corporation.
The Corporation has done during that period a work which will no doubt be long remembered, and will long be a source of pride to the Corporation. It has been a time of great progress, and the Corporation has a right to look back with satisfaction upon the work it has done.

The Corporation will meet in October, and the President and Treasurer will be present.

CORPORATION ANNOUNCES GIFTS.

$6000 Addition to Bursar's Fund for Poor Students.

Grants recently received were announced at the Corporation meeting on Wednesday. There is the $6000 from the estate of Louis P. Ord, which was given under the condition that "this fund be devoted to the relief of students of Dartmouth College, and used for the purpose of reducing the permanent fund, the income of which shall be devoted to the permanent fund for the relief of poor students at the Institute, in the discretion of the Bursar, for the benefit of any students of the College who, by reason of the exigencies of their circumstances, cannot be at the time having the degree of the College, for the benefit of any students of the Corporation for the opening year.

Changes in the Faculty.

During the past year the Corporation has had a little levien in the faculty, and five members of the Corporation have withdrawn: Professor George A. Lloyd, Professor of Chemistry; Professor George W. Smith, Professor of Chemical Engineering; Professor W. W. Smith, Associate Professor of Chemical Engineering; Professor F. L. Lodge, Associate Professor of Chemical Engineering; and Professor T. R. B. Jordan, Associate Professor of Chemical Engineering.

The Corporation has been able to add two new members to the faculty: Professor C. C. Bridge, Professor of Physics; and Professor F. L. Lodge, Associate Professor of Chemistry.

The Corporation has also decided to reduce the faculty by two members: Professor C. C. Bridge, Professor of Physics; and Professor F. L. Lodge, Associate Professor of Chemistry.

The Corporation has also decided to increase the faculty by two members: Professor C. C. Bridge, Professor of Physics; and Professor F. L. Lodge, Associate Professor of Chemistry.

Tuition Changes.

The Corporation has decided to increase the tuition for next year. The increase is to be $100 per year for the whole year, and $50 per term for the first year.

The Corporation has also decided to decrease the tuition for next year. The decrease is to be $50 per year for the whole year, and $25 per term for the first year.

The Corporation has also decided to maintain the tuition for next year. The tuition for the whole year is to be $500, and $250 per term for the first year.
