AWAY WITH THE SPIKE SPINDLE

One has often wondered at the newspaper accounts of persons becoming maimed, or even killed from accidents occurring from the SPIKE SPINDLE; the pushing of the sharp point through the hand in placing papers therein, or overtopping and having it run into the face. Their use is very dangerous. One caused the death of a girl in a Boston department store. THE DEVICE PATENT SPRING SPINDLE FILE was invented to take the place of the spike. Our File not only does away with all danger, but in no wise destroys the papers that are to be filed, as the SPIKE SPINDLE does. The device is shown as a file for general papers and as a stenographer's note book holder. It can also be used to hold open a book while reading by clasping at top in the middle. Send stamp for circular. Over 50,000 in use. Used in over 200 N. E. City Towns and Private Schools.
