D ZUSS AND APPROVE.

Now that every student has heard about the idea of using the Copley Hall building as a temporary Walker Memorial Union or Union, every student should say what he thinks of the idea. The move is just back into view the situation to the Corporation and Walker Memorial Committee that there was a demand for suitable accommodations for the文娱ment of the social side of student life. The expressions at the class meetings have been in harmony with that thought, and in the matter show there is a demand in the duty of every student at the Institute, either individually or, better collectively, through his class or other organizations, to express approval of the plan.

The placing of the offices of the various student organizations together with the office of the alumni association and the coat room in the Copley Hall building would greatly relieve the congested condition of the Rogers Building.

APPROVED BY SENIORS AND JUNIORS.

(Signed) January 1st, 1908.
