CLASSfES BATTLE
(Continued from page 1.)

The high jump is uncertain on several
good men from the Freshman class
who have not yet come out, and may for
some time to come, surprise us with
new performances. Schackoff 1908, St. Rutger 1910, Bart
field 1910, Schackoff 1909 and Pesos 1909 are also
possibilities.

In the pole vault there are Capt.
Orland 1880, Schackoff 1891, Salamandie 1911
and W. D. Allen 1912, who got second in the fall meet.

The 16-lb. shot put should go to
Moran 1910, who has extended his di-
tance by several feet. Bucchanan 1910
will fight it out for second place. A. G.
Allen 1890, Sherman 1880, and Orand
1889 are also possibilities for pole vault.

M. C. N. EARS DR. McELVEEN.

The Technology Review
A QUARTERLY MAGAZINE
DEVOTED TO THE INTERESTS
OF THE MASSACHUSETTS INSTITUTE
OF TECHNOLOGY

THE REVIEW is published during January, April, July, and October. It is the official organ of the Institute of
Technology, and is under the direction of the President.

The Review aims to develop closer relations among Institute men and to bridge the gap between the work of
the College. It is in no sense a journal, in no sense an educational periodical, but rather a journal of special
interest and value to the graduates.

The Review aims to develop the athletic men and to show them the value of their
interest in the work of the College. It is no
sense a journal, in no sense an educational periodical, but rather a journal of
special interest and value to the graduates.
