BUSINESS OPPORTUNITY

I have what I think, a very good opportunity to offer to an ambitious young man, with capital and good education to enter business as an active partner. The business I refer to is the production of electric hoists and slab screws which are of growing concern in the mechanical world. We can manufacture these screws at any time, sterilizable and all alike, from a standard size, any length, cut with any style of thread, with a very satisfactory power of handling any size load. This is something which has never been accomplished before, hence a good opportunity for a bright young man. I have a demonstrating plant fitted with these slab孟tions covered by patents, which I shall be pleased to show to such a partner as may be interested in it, and I would be very glad to exchange references with anyone answering the above advertisement.
