BUSINESS OPPORTUNITY

I have what I think, a very good opportunity to offer to an ambitious young man with capital and education to get good elevation in the business as an active partner. The business which I refer to is the production of golf green钞单 machines. These machines are in great demand by the mechanical world. We can manufacture these covers in any number, interchangeable and all alike from 2 to 10 inches in diameter, any height, cut with any style of thread, with a very satisfactory profit over all and have other ideas known. This is something which has never been accomplished before, been a good opportunity for a bright young man. I have a photographed plan for these golf machines covered by patents which I would be pleased to show to such a person as you referred to, and would be only too glad to exchange references with anyone answering the above requirements.
