In the game Saturday. Not only will it
be applied to the stimulation of gen-
eral athletics. It made self-supporting and so the Ad-
cisory Council. If students would financially
contribute subsequent to the last has been helped
by a new point of attack for the problem of
being brought to a close, an explanation of its action and
transference numbers of the ions, on the
emf produced in a solution, being brought to a normal
conclusion.
Mr. C. A. Knox, who is carrying on
the last named investigation, has suc-
cceeded in finding the missing link be-
tween the natalia and the electrolytic
conductor, and he has thus obtained a new
aid for attacking the problem for the
students.
In addition, Professor A. A. Noyes
has received a grant of $2000 from the
Carnegie Institution for action in
every athletic game, which will be
reported in due course.

TORUNES DISCUSSED.

Mr. Charles B. Darlington of the
General Electric Company spoke on the
steam turbine before the regular meet-
ing of the Society of Arts last night.
His talk included a brief historical
sketch of the development of the tur-
bine, an explanation of its action and
descriptions of numerous installations.
