BOWLING ALLEYS

Established 1898
175 Dartmouth Street
Opp. Pierce Bldg.

Two alleys with all bowling facilities for the use of students.

IS OLDEST IN THE COUNTRY.

(Continued from page 1.)

It was intended that the committee should serve as an agency for looking after the interests of the college and that it has been in close touch with every change and new policy since it was appointed; proving a good aid in the change of the course and in grappling with new educational problems that have arisen.

The teaching of Professor Jackson, head of the course, has of late years, especially at the University of Wisconsin, related mostly to phenomena of alternating currents and alternating-current machinery, but Professor Clifford has proved himself to have those subjects in hand that Professor Jackson has turned his attention toward lectures and questions for the past two years in subjects relating none directly to the industrial, and as such a question of engineering subjects. Opportunity for Professor Jackson to afford educational training in the new arrangement of the curriculum of the course the faculty has granted the head of the course the privilege of substituting the course in electricity which Professor Jackson is utilizing until the modified course comes into effect.

The promotions and appointments made during the past year in the electrical department follow:

Professor Ralph E. Lawrence and Professor David W. Smith have been promoted from the position of assistant professor of electrical engineering to associate Professor: Mr. H. G. Crane and Mr. W. V. Walk have been promoted from the position of assistant to assistant in electrical engineering.

The Review aims to develop closer relations among Institute men and to stimulate their interest in the professional man. It deals with general technology in the broad sense at engineering magazine, but deals among Institute men and to stimulate their interest in the professional man. It deals with general technology in the broad sense at engineering

THE REVIEWS IS PUBLISHED DURING JANUARY, APRIL, JULY, AND OCTOBER. APPLICATIONS SHOULD BE ADDRESSED TO THE TECHNOLOGY REVIEW 4444 DARTMOUTH STREET, BOSTON, MASS.

SUBSCRIPTION, ONE DOLLAR A YEAR
