SOPHOMORES PLAN FOR EXTENDED BALL SEASON.

NINE NEW CANDIDATES OUT.

Inefrequent Practice on Account of High Offices

At a meeting of the 1910 baseball candidates Friday Manager Billings called attention to the fact that nine new men out of a group of seven or more men had been dropped from the nine-man team. Dory, who was promoted to the eleven-man team, mystified the others when he announced that he would fill the position again when he was the only available man for the team.

Opportunities are also good in the other positions and any man or women who can make their presence felt will be welcomed in the nine-man team.

Regular practice will begin at 4 p.m. in about a week and the batteries will start working on practice to prepare for the season. Only one regular practice a week will be held on account of the baseball scholarship on the uniform band schedule.

BEAUX ARTS DRAWINGS IN PIERCE.

Fourth-Year Work Also To Be Shown

A large number of drawings made in the École des Beaux Arts by Bellows will be shown in the exhibition room in Pierce for the past week. Below is returned from Paris a number of drawings all having received his diploma from the French government. The exhibition includes the character of work being done by the architectural students in Paris.

The drawings made by the fourth-year men in the recent course of the Boston Society of Architects have been on display at the exhibition room this week. The preparatory to the final judgment of the committee.

FRESHMAN BEaten BY SCRUBS.

The first practice of the Tech freshman baseball team took place yesterday afternoon in the exhibition room with Manager R. M. Spencer. A scrub game followed immediately. Some composed of several notable college men was the team and the freshmen won handsomely.

The intercollegiate game was reported for work as examinations for the team: T. F. Mac- Donald, A. W. Yaroom, R. Bums, R. C. Taylor, A. Y. Schats, W. M. Hopkins, L. de Florez, P. A. Logan, P. H. Orel, F. A. F. M. B. Brewer.

SIXTEEN Men ON Run.

The fine weather Saturday brought out a large number of freshmen and handsom run. The start was from the Lottie Chase into Harvard park, where the Harvard course as far as Larnes Arnold was done. This constitutes the course covered in all.

The team finished in the following order: J. F. McCarthy 1909, first, J. D. Markey 1909, second, V. T. Oor 1909, third, J. S. Stephenson 1909, fourth, W. Davis 1909, fifth; R. Bums 1909, and D. H. Hines 1909 were tied for sixth. The other men who took part were Paul 1909, W. G. 1909, W. M. 1909, J. Bigelow 1909, and W. Warner 1909. The time was 28 minutes 21.6 seconds.

Sunday morning the Lapine Acetylene Works, W. H. Gore 1909, M. H. Greene 1910, R. E. G. 1909, H. W. Harington 1909, C. C. Connor 1910, and C. J. Hottinger 1909 were tied for the first place, the time was 28 minutes 34.7 seconds.

William Gaylord 1909, of Torington, Conn., was elected the first president of the American Brass Co. at Watertown to the Ore Brass Co. in the same city.

TECH SHOW MANAGEMENT 1909.

Top Row—Lincoln Mayo 1909, Ass't. Business Manager; Cochbert Bibb 1911, Ass't. Stage Manager; Richard Frederick Goodwin 1910, Ass't. Stage Manager; Clarence Alva Woodruff 1911, Ass't. Advertising Manager; Dudley Chap 1910, Ass't. Advertising Manager; Carl Joseph Stith 1910, Ass't. Business Manager.

Second Row—Clarence Jay Brown 1910, Advertising Manager; Garnett Alfred Judson 1910 Stage Manager; Frederick Abraham Dewey 1910, General Manager; Curtis Christopher Webb 1910, Business Manager.

MARSHALSHIP QUESTION DIVIDES SENIOR COMMITTEE.

Settlement Seems Doubtful

Class Day Committee Halves as to Election of Three High Officials. Referendum to Class Likely.

Many divided in the senior Class Day Committee by a question whether the marshals should be the three highest in scholarship or the three highest in scholarship and four additional men. Many claim that the men securing the greatest number of votes were the men desired in the class as marshals. Others say that it was understood in the recent elections that the men pulling the highest vote would be chosen according to the results.

The members of the committee who claim that the high vote should not make the marshals, assert a change effected by the Class day committee, by majority rule, any change from the high scholarship of the men, but rather a referendum of the class. They cited as evidence the fact that there was a large body of the class, who had confidence in the tradition that the majority of the members of the men securing the greatest number of votes in the class will cast. Their claim is that this was one of the reasons for the de- tennined to be followed this year. The fairness of the method of referring the matter to the class has been emphasized by these students. Also it is strongly advocated by the committee that the committee, by a majority rule, any change from the high scholarship of the men, but rather a referendum of the class. They cited as evidence the fact that there was a large body of the class, who had confidence in the tradition that the majority of the members of the men securing the greatest number of votes in the class will cast. Their claim is that this was one of the reasons for the determination of the committee to say that it was understood in the recent elections.

At present the committee seems to be split on the question with little liklihood of a settlement.

The only thing that has been decided so far is that the question of the Marshals' election will be taken up by the student body at the meeting on Friday morning, but it is claimed that the committee has voted that there is one of the majorities in the Class day committee over the student body, the vote to be taken by the class.

The question of what should be elected marshals has been brought up by the committee because of the action of the student body in changing the course of the elections.

ELECTRICAL ENGINEERS TO SEE NIAGARA FALLS.

LEAVE BOSTON TOMORROW.

Trips Will Include Stay at Albany, Someelety and Buffalo.

Professors G. C. Richards and H. E. Clifton will take Twenty-five of the senior electrical engineers on an inspection trip through Schenectady, Niagara Falls and Buffalo this week. This will be the first time this tour has been taken by the course. It has been planned in former years to go to New York and Schenectady. The senior electrical engineers inspection now going on is the "A" class power station at the best a place where we can see and learn about. As the first time this tour has been taken by the course. It has been planned in former years to go to New York and Schenectady. The senior electrical engineers inspection now going on is the "A" class power station at the best a place to where we can see and learn about.

The total cost of the trip will be, at a minimum, $55. The schedule which takes up a week beginning Tuesday of next week is as follows:

TUESDAY 4:45 P. M., leave Albany for Schenectady via electric line. The trip will be at the works of the General Electric Company. Return to the hotel Wednesday morning.

THURSDAY 8:00 A. M., leave Albany for Schenectady via electric line. The trip will be at the works of the General Electric Company. Return to the hotel Wednesday morning.

FRIDAY 8:00 A.M., leave Albany for Schenectady via electric line. The trip will be at the works of the General Electric Company. Return to the hotel Wednesday morning.

WET TRACK PREVENTS FAST WORK.

Veterans in Squad. Also New Material. Good Form for First Spring Work.

Outdoor work for the track men started Saturday, a large squad working out at the field. The track was wet, prohibiting any fast work, but the men showed great form at the beginning of the season.
