FROM COVER TO COVER IS
TECHNIQUE DISTINGUISHABLE.

MANY ORIGINAL FEATURES.

First Impression Weakened as Scene of Fakir Appears.

(As Channing True 1904 and H. W. Hoole 1908.)

Distinguishable from cover to cover Technique style which comes up to the standard of those published by 1902 and 1903. This impression is weakened as some of the faults appear upon turning the pages. Faults which, however, in greater part are due to any carelessness or ignorance on the part of the board, but rather to the engraver and printer together with the mechanical of the editorial form.

Throughout there is a great variance (Continued on page 3.)

JUNIOR PROM TUESDAY
TO BE BRILLIANT AFFAIR.
DANCE BEGINS AT NINE.

Committee Requests Conformity to Arrangements Made.

Junior Prom, Tech’s most important social event, has been completely arranged and will take place next Tuesday evening at the Hotel Somerset. In order to facilitate everything, the Prom Committee requests each person present to conform as far as possible to the arrangements stated below.

In the Somerset Hotel, admission can be gained only at the reception desk. An attendant, together with a member of the Prom Committee, will be stationed at the door to check off each one as he enters. This is done in order that the hotel management may have a full total of proper arrangements for the supper.

Also, it will be advisable that no one who has not received the special subscription fee of $3.00, dance orders may be obtained at the (Continued on page 3.)

TECHNIQUE’S BIG ROUGH HOUSE COMES OFF TODAY.

1.05 P.M. THE TIME.

Fun Will Begin Much Earlier and Be Fast and Faithful.

Technique 1909 comes out today. At 1:05 P.M. the big rough house will be fired, two others coming at 1:00 and 1:01:15, and the final gun at 1:00. This rush takes place in the Art Museum, where it will be swept away by a rush of students from another quarter. After eight o’clock and ten the windows will be free for all rough house that has always attended the initial appearance of all Technique.

Last year the fellows began to gather about an hour before the gun was fired, but after that the rush began and continued until about all the boys had been given out. The rush takes place behind the Art Museum where it will also continue for a year, a slightly larger than last year, for the rush has been increased for the occasion.

As far as the first gun was fired, last year the maneuvering for the window began. As fast as one man got in place he was swept away by a rush of students from another quarter. After vast dines and leaps for the window a number of men climbed upon the roof and were shot to pieces. After which, the heads of those below, thus securing numbered looks early. All are urged to send orders for tickets to the rush before T. P. M. as no one will receive a book who does not present a receipted ticket.

The successful reception experienced so far this season by the Musical Clubs assures a performance of high order Monday evening. The program for the concert includes a number of new pieces which the clubs have been preparing especially for this occasion.

ARCHITECT’S EXHIBITION LONGEST TECH HAS HAD.

EACH MAN REPRESENTED.

Many Novel Features of Exhibition

The Architectural Society will hold its annual exhibition and exhibition in the atriums of the exhibition department, Wednesday afternoon from 3 to 6. The reception given during Junior Week last year was the first function of the kind ever under- taken by Tech and proved to be one of the most successful features of the week. This year’s event will far surpass last year’s, and the unreas Iness of the exhibition will be made of the greatest of the great events of the year.

It is planned by the committee that in the exhibition of drawing man shall be represented by one or more (Continued on page 7.)
