**SOCIETY ELECTS NEW OFFICERS.**

Professor Elmo Thompson of the General Electric Company will be the speaker at the last electrical engineering society meeting, to be held next Friday, May 22, at 6:30 in the Union. This makes the last of the special engineering profession that this year's management has secured for the society.

For next year, John Mills 1909 will head the electrical engineering society as its president. The election of officers was held last night at the Union. The votes were cast for the successful candidates for the remaining offices. Barr 1911 was added to the membership list.

**GHEMISTS AND ENGINEERS PLAN IMPORTANT THESES.**

Many theses of industrial importance are being carried out by seniors in courses X and V. The results obtained will be of great advantage to the various industries concerned. Of especial interest is W. B. Toppan's work on the effect of the combination of glass on its optical properties. This subject has been investigated in the research laboratory, but the results kept secret. J. A. B. Babcock's work on the three color process which is another subject of interest at the present time.

Some of the work of the courses X and V to become a subject of industrial value, while the work on the development of a new foodstuff will bring out answers to some of the most important problems of industry. The first list of theses is as follows:

**CROSS-COUNTRY RUNS.**

**GIVE CUP TO ALUMNI.**

For the fifth year the Alumni of the Institute have given their class dinner on the night of Pops. The dinner was held on the night of the Cross-Country team. All men who have come to the dinner will be presented with a cup.

**BROOKLYN POLYTECHNIC.**

During the week of May 22, the students of the Brooklyn Polytechnic Institution will hold their Annual Meeting and dinner at the Union. The students for the evening committee will be held at the Brooklyn Polytechnic Institute on Tuesday, May 22. The next meeting of the club will be held at 6:00 o'clock in the evening.
