If you are a Senior we can offer you work that promises rapid advancement and pays well.

If you are an Underclassman we can employ you at Summer work that will leave you next Fall with a lot more money than you have now.

If you have already made plans that won't materialize for a month or two—our work will give you ready money—introduce you widely to people who may be of help to you—and in no way interfere with your future plans.

Previous experience is not necessary. We believe we can interest you. Write for particulars to:

BENT & BUSH

15 SCHOOL ST. BOSTON, MASS.

"THE GIRLS ARE FOND OF THESE" Things are one of the necessary ingredients of a healthy life. A good home, a good climate, a sound constitution, can never be maintained by those who neglect the necessary precautions against injury, disease, and death. The question for each of you is, "What measures have you taken this year to protect your health?" The answers will vary, but they will all contain the same fundamental principle: "Prevention is better than cure." Preventive measures are essential to the health of the individual and to the health of society as a whole. In this issue, we will explore the importance of preventive health care and discuss the various factors that contribute to maintaining good health.

For instance, what are the benefits of regular exercise? How does a healthy diet contribute to overall well-being? And what role does mental health play in our physical health? We will also examine the latest research on the impact of environmental factors on health, such as pollution, climate change, and air quality.

In addition to these scientific considerations, we will also consider the importance of personal responsibility in maintaining good health. This includes making choices about lifestyle, such as smoking and drinking alcohol, and taking care of one's body through proper nutrition and hygiene.

Finally, we will discuss the role of government and public health organizations in promoting health and preventing disease. How can these institutions work together to ensure that everyone has access to the health care they need? And what can citizens do to support these efforts?

This issue will be a comprehensive guide to understanding the complex relationship between health and society, and the steps we can take to improve our own health and the health of those around us.

**CONCERT BY MUSICAL CLUBS.**

Saturday evening the combined Glee and Mandolin Clubs gave a concert in the college auditorium. An excellent program was furnished, and the members performed exceptionally well, each number being encored by the audience. The Glee Club, and the "Glee Song," by the Glee Club, were excellent.

**INVITATION TO ALL GRADUATES.**

P. T. Tilton, secretary of the Technology Club of Philadelphia, has extended a cordial invitation to all graduates who may be in the vicinity of the Quaker city, to a Field Day celebration of the club. The celebration will be held on the twentieth of June at the Woodberry Country Club, Woodbury, N. J.

**SCHOLARSHIP TO TECH MAN.**

The University Council at Columbia University, New York, has just awarded a scholarship of the value of $100 to Mr. Burton W. Kennedy of the city of Greenfield, Mass. The selection of the Columbia University Scholarship Board, which 32 are awarded each year, is made from among a large number of graduates of the best colleges and universities in the country.

**PROFESSOR CLIFFORD HONORED.**

At the recent annual meeting of the American Institute of Electrical Engineers it was announced that Professor R. E. Clifford had been elected a member of the Board of Managers of the Institute. The new president is Mr. L. A. F. F. Pernson of Chicago, a graduate of Course VI in the class of 1908.
