Established 1898 175 Dartmouth Street Opp. Pierce Bldg.

Two minutes walk from all Tech Buildings. Unexcelled facilities for ladies and the most fastidious bowler to enjoy this fascinating and healthy pastime. Alleys reserved and screened for private parties. Come in and enjoy a little fun and exercise between periods.

LEADER KIDNAPPED

(Continued from page 1.)

main theme. He gave a short talk on the acting president, past traditions, and the apparent lack of interest shown by the class in coming out for track practice in preparation for Field Day.

The Bursar opened up his usual attack on the wit of the Dean. In spite of his frequent assertions that his was a serious talk, he had his little jokes.

Mr. Coes 1906 was then called upon. He came representing New York City which is the second largest Technology center in the country. He told of the interest with which the New York Alumni Association had heard of the building of the New Union and laid special stress on the part Dr. Pritchett, while president, played in establishing the Union spirit in the small rooms on Garrison Street despite the great antagonism of faculty, alumni, and some undergraduates. On the strength of his own convictions he had made a success of this smaller union which paved the way for the new.

Coach Kanaly took up the question of athletics and showed the freshmen only too plainly just what they had to buck up against. He said he was going to give everyone his attention who would only show his willingness to do his share in class and school track work.

In lieu of the chairman of 1912, Secretary Seth H. Seeley said a few words remarking that he was forced to speak because 1911 had done them one better this trip and it was up to 1912 to show its metal.

Tech first, class second, was the catechism of I. W. Litchfield 1885. He said that it was the duty of every man to be a Tech man. Then the importance of the relations established between classmates was emphasized. The class learned what an important year in Tech life they were entering upon when the vital issues of the location of the Institute, the selection of a president were to be definitely decided and finally, in June, would come the second large Tech reunion.

The toastmaster, Channing Turner, then closed the meeting with a few words of advice.

After the dinner the freshmen found themselves unable to leave as their friends of 1911 had blockaded the door. A few words from the Dean proved an "open sesame."

The diners marched cheering and singing to Rogers' steps under the leadership of T. W. Saul, president of the junior class. About 30 sophomores on the outskirts attempted to capture stragglers, but the freshmen, each marked by a white handkerchief on his left arm, kept pretty close together as they zigzagged along four abreast.

Soon 1912 turned the tables on their rivals, by capturing J. Gersberg, I. W. Wilson, H. M. Hallet, W. C. Salisbury, and C. A. Cowee of 1911. These men were taken to Rogers' steps and forced to make speeches to the hooting mob. Salisbury and Cowee were put in night gowns to the edification of passers by. After more songs and cheers the crowd of freshmen left for their homes, hoarse but happy.

Herbert Joseph Stiebel 1909 was chosen leader of the mandolin club at a meeting last Saturday.

TWO LONELY FRESHMEN

(Continued from page 1.)

are sending out a large number of men for all the teams, competition is keen, and all the men seem anxious to make up for the defeat of their respective teams last year.

Coach Kanaly is hard at work getting both relay teams into shape and at present the work is almost entirely confined to practice in starting.

Practice was suspended Saturday, but will be resumed today.

The sophomores who reported at the field last Friday are: J. A. Bigelow, F. C. Dolke, H. Fryer, L. G. Glazier, R. H. Gould, W. H. Hildebrand, A. S. De W. Henesoff, W. C. Salisbury, C. R. Johnson, H. L. Robinson, D. R. Stevens, and L. C. Cooley.

The first meeting of the Athletic Association last Friday afternoon resulted in the reading of three letters from Major Briggs to the body by K. D. Fernstrom, the manager of this year's track team. The substance of these letters was urging the cutting down of expenses in the various branches of athletics, and the retrenchment met the approval of the managers of all the institute teams.

Captain E. M. Loring of the fencing team said that no money would be required from the association for the coaching of the team, and Manager Chapin stated further that save one, all the fencing meets would be away from home. This one meet at home would be a triangular one with members of the I. F. L.

W. B. Hargraes announced that the deficit of the Basket ball team would not exceed twenty-five dollars, while W. J. Kelly, manager of the Hockey team, called the attention of the Athletic Association to the fact that the total incombance of the expenses to that body last season was five dollars.

It was voted to approve these reports pending the action of the new Athletic Association, consisting of five men to be elected from each of the four undergraduate classes and the captains and managers of all the institute varsity teams.

It was also voted to recommend the four classes to hold their elections as soon as possible to facilitate the starting of business by the association.

W. J. O'Hearn, 1910, was elected manager of the Hockey Team.

CROSS COUNTRY

(Continued from page 1.)

given by the faculty to substitute track or cross country work for the compulsory gymnasium work. By this arrangement men can substitute for gymnastics, track work three days a week from October 15 to Dec. 1, for the first term. During the second term, the period for track work will be the same as that for the gymnasium work. Saturday hare and hounds runs will count as one day's track work.

The period for fall track work is considerably shorter than the corresponding gymnasium period which is from the first of November to the Christmas vacation.

In order that men who do not come out until the middle of October may have a good chance of making the team, the trials have been made as late as possible. The race with Harvard will take place on Field Day, Nov. 6, and the trials for the team will be held Oct. 31.

The Technology Review

A QUARTERLY MAGAZINE

DEVOTED TO THE INTERESTS OF

THE MASSACHUSETTS INSTITUTE

OF TECHNOLOGY

AND

PUBLISHED BY THE ASSOCIATION

OF CLASS SECRETARIES

83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to THE TECHNOLOGY REVIEW, 83 Newbury St., Boston.

SUBSCRIPTION, ONE DOLLAR A YEAR.
SINGLE COPIES, THIRTY-FIVE CENTS

Volumes I, III, IV, V, VI, VII, VIII, and IX, finely bound in half morocco, are ready for delivery at \$2.25 each, or will be exchanged for unbound sets, provided they are in good condition at \$1.25 each. (If sent by mail, 30 cents extra.)
