Two minutes walk from all Tech Buildings. Unexcelled facilities for ladies and the most fastidious bowler to enjoy this fascinating and healthy pastime. Alleys reserved and screened for private parties. Come in and enjoy a little fun and exercise between periods.

TECH SHOW

(Continued from page 1.)

of the play accepted will be announced at the dinner. Francis is scheduled to speak and there will be some other interesting addresses.

It is possible that General Manager Joslin may be able to give the trip which the show will take. The vacation this year is just the same as the one last year and the holiday is celebrated on the same day, as it came on Sunday last year. It is hoped, however, that it may be possible to give more performances this year than were given last April, and every effort is being made to do so.

After the end of tug-of-war, relay, and football work next Field Day the competition for the business and advertising managements will begin. There are two assistants in each of these departments, preferably sophomore and freshman, and these will be selected before next term. The chances this year are especially good and should bring out a large number.

The management has done a good deal of work already and has adopted a strict set of rules which promise well for efficient government of the show this year. The new show office will be in the Union, probably in Room B, and it is the plan this year for the managers to meet the candidates often and thus be able to instruct them and judge their work.

Competition for the poster will start as soon as the show is picked. As usual a prize of \$10.00 will be offered for the best work. The lyric competition will also start at this time. The verses for the Show are written by anyone who wishes and selected by competition. A list of titles for songs will be given out and a man may write as few or as many as he chooses. Departures from the list will be welcomed, and any good lyric can be worked in whether it concerns the play or not.

CHINA VISITS TECH

Messrs. Chang Po Ling and Li Chin Hsiang of Tientsin, China, who are making a tour of the world inspecting educational institutions, visited the Institute on Saturday and were shown through the buildings by Mr. Rapelye.

The two Chinese gentlemen arrived at San Francisco on Sept. 1 and in their trip across the continent have seen many of the leading colleges and universities, among them Princeton, Yale, Harvard, and Columbia. They left for New York Saturday evening and will start for Liverpool today.

STOCKDALE SPEAKS

At the Y. M. C. A. meeting in the Union Sunday, Rev. Allan A. Stockdale of the Union Congregational church gave an interesting talk which was well attended.

News has been received of the marriage of Elizabeth Fye Davidson, of Dorchester, to Stewart Clark Coey 1906, of Lawrence, Mass. The best man was Edward Coey of Brockton, a brother of the groom.

The ushers were G. Gilbert Brown, Princeton 1906; Alfred Place 1908; Daniel C. Munroe, Bowdoin 1903; and Francis Drake 1905.

FIELD DAY

(Continued from page 1.)

next Friday.

The football teams have had pretty short schedules this year and almost their only practice has been by themselves at the Field.

In comparing the teams one naturally thinks of the scores with Lowell Textile games which were identical, each team winning 18-0. If the game which counts four points, is a tie the winning class will be the one which wins the relay race which counts three points as against two for the tug-of-war. At all events, each struggle will be close enough to be interesting and there will be nothing one-sided about any of them. man, doing the relay in 23 seconds. The average time of the record for the course was 25 seconds. Captain Salisbury has shown what he can do on the track and several other men are exceptionally fast, but the general average is not much better if as good as that of the 1912 team. The sophomores have corrected their great fault of last year when they several times dropped the flag, and Captain Reed has been having his men practice this also.

The tug-of-war will be interesting on account of the new rule of having three trials. It has often been suggested that one trial was hardly a fair test as a little accident may give one team a start which they will use to much advantage. The teams have both been using the new machine and will strain the rope some when they meet. A prediction as to the result of a tug-of-war is a difficult or impossible task, but it is quite possible that upon this event will rest the decision of the victory

COPELAND CAPTAIN

Stewart B. Copeland was chosen captain of the sophomore tug-of-war team Saturday. Copeland was a member of the team last year and is the treasurer of the class. The team held trials Saturday, thirty men each taking a turn at the new machine installed for the purpose by Prof. Park. The result will be given out today.

The Technology Review

A QUARTERLY MAGAZINE DEVOTED TO THE INTERESTS OF THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY

AND

PUBLISHED BY THE ASSOCIATION OF CLASS SECRETARIES

83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to The TECHNOLOGY REVIEW, 83 Newbury St., Boston.

SUBSCRIPTION, ONE DOLLAR A YEAR SINGLE COPIES, THIRTY-FIVE CENTS

Volumes I, III, IV, V, VI, VII, VIII, and IX, finely bound in half morocco, are ready for delivery at \$2.25 each, or will be exchanged for unbound sets, provided they are in good condition at \$1.25 each. (If sent by mail, 30 cents extra.)
