"TECH BOWLING HEADQUARTERS"

TRINITY COURT BOWLING ALLEYS

Established 1898 175 Dartmouth Street Opp. Pierce Bldg.

Two minutes walk from all Tech Buildings. Unexcelled facilities for ladies and the most fastidious bowler to enjoy this fascinating and healthy pastime. Alleys reserved and screened for private parties. Come in and enjoy a little fun and exercise between periods.

COAST CHART WORK

Instructor Williams Speaks on
Government Survey and
Map System

A. R. Cullimore 1907, instructor in surveying, gave an interesting talk on hydrographic surveying to the Civil Engineering Society in 11 B, yesterday afternoon. Mr. Cullimore's talk was especially valuable for those men who did not know definitely what branch of work they were going to take up after graduating. He described in detail the making of the coast charts used in navigation and the planning of engineering structures built on the coast and banks of rivers and lakes.

The surveying party usually consists of about eighteen men, including instrument men, plane table men, rodmen, etc. The salary of the man in charge is from \$150 to \$200 a month. Triangular stations are set up on shore by means of which points in the river or harbor are located. Soundings are taken and plotted with a description of the bottom. The method of keeping the field book, making the plots, and the practical details of triangulation and sounding were all taken up by Mr. Cullimore.

There was a brief business meeting preceding the lecture. H. I. Pearl 1910, resigned from the program committee because of the point system and W. C. Arkell 1910, was elected.

The following, who were proposed for membership at the last meeting, were elected:—From 1909, C. H. Crawford; from 1910, L. G. Rice, A. B. Mason, C. N. White, H. P. Armstrong, J. C. Diehl, H. S. Dornberger, H. Schriber, C. N. Coppinger, R. A. Smead, M. A. Navarro, A. H. Sava, R. W. Horne, R. J. Boltz, M. A. Cadmus, Jr., G. James, R. H. Stauer, B. Z. Beall, H. H. Cummings, A. Allen, L. W. Greely; from 1911, J. Hausman, A. W. Yearance, B.

Hill, B. Wheelwright, S. P. Finch, W. J. Simonds, H. L. Manley, B. Lawrence, E. A. Nash, G. L. Mylechrest, H. L. Robinson, and Maglott.

The following were proposed for membership:—J. Lodge, special, T. J. Hickerson, H. S. Osborne 1908, and H. M. Davis 1911.

FRESHMEN AGREE

To Keep Away from Night Before
by Formal Class Vote

At the meeting of the freshman class held yesterday noon various phases of Field Day were discussed. The president, H. D. Kemp, recommended that all freshmen keep away from the Field before the opening of the sports in the afternoon. He said that the 1911 men had voted not to have any rush the night before Field Day and that he thought that the only right thing to do under these circumstances was for the freshmen to stay away from the Field the night before.

It has been arranged for M. C. Woodward, the cheer leader, to have a seat in the front row at the theatre tonight so that the freshmen are sure to hold up their end when it comes to making a noise.

At a meeting of the executive committee it was voted to have several flags at the theatre. It was also voted that all the necessary expenses of the different teams should be paid by the class.

CONVERSATIONAL TALKS IN GERMAN—The topic of Dr. Schumacher's talk, next Monday, November 9, will be the German Government (imperial, state, and municipal).

The Doctor intends, in a talk at an early date, to speak about the German technical schools, showing catalogs and pictures of these institutions which he has received from Germany.

The Technology Review

A QUARTERLY MAGAZINE
DEVOTED TO THE INTERESTS OF
THE MASSACHUSETTS INSTITUTE
OF TECHNOLOGY
AND
PUBLISHED BY THE ASSOCIATION
OF CLASS SECRETARIES
83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to The TECHNOLOGY REVIEW, 83 Newbury St., Boston.

SUBSCRIPTION, ONE DOLLAR A YEAR
SINGLE COPIES, THIRTY-FIVE CENTS

Volumes I., III., IV., V., VI., VII., VIII., and IX., finely bound in half morocco, are ready for delivery at \$2.25 each, or will be exchanged for unbound sets, provided they are in good condition at \$1.25 each. (If sent by mail, 30 cents extra.)

THE LATEST AND BEST A. W. FABER

"CASTELL"

Drawing Pencils

Made of the purest graphite in 16 degrees of hardness, 6B to 8H, of the utmost delicacy of tone, permanency, durability and intensity of color.

They take the finest point obtainable of any lead pencil, are least liable to wear, therefore more lasting than any others.

Sold by all stationers and dealers in artists' materials. Sample sent to all parties interested on receipt of 10 cents in postage stamps.
