Frank Alvord Perret Talks on Vesuvian Eruptions and Volcanoes

THOERY EXPLAINED

Professor Perret, Representative of the Rovanic Research Society and Brooklyn Institute

Yesterday evening, Professor Frank Alvord Perret delivered a lecture on Vesuvian Eruptions and Volcanoes. He came as the representative of the Volcanic Research Society and the Brooklyn Institute. He spoke at the Vesuvian Eruption and the Volcanic Research Society. His account of the eruption of Vesuvius was historical and geographical. He pointed out that the larger part of the Volcanic Research Society is the result of a scientific and practical study. Many of the sides of the eruption were not accurately known, and he said that a great personal risk was required.

Part in Physical Training

At the beginning of the year, 20 men expressed their intention of coming out for the hand grip run. There were 21 men in the first week, but Mr. Towne was unable to be present. He was taken ill in Boston. Mr. Towne was to be present. It is the desire of the Manager to have the hand grip run given every two weeks. It was pointed out that it is impossible to have a regular schedule for the hand grip run, because of the many different interests of the men and women. It is the desire of the Manager to have the hand grip run given every two weeks. It was pointed out that it is impossible to have a regular schedule for the hand grip run, because of the many different interests of the men and women.

Gym Classes at Work

Freshman Attendance Poor at the First Meeting-

New Instructor

The department of physical training has been organized for the present purpose. It is the desire of the Manager to have the hand grip run given every two weeks. It was pointed out that it is impossible to have a regular schedule for the hand grip run, because of the many different interests of the men and women.
