NEW SHOW FULL OF INTEREST AND WITH
Experience in Theatricals Aids Author in Model Production
LYRICS DUE TOMORROW
Music-Writers will be Able to Start Composing Next Week

Sidney Arnold Malcolm, 1909, author of the new show, "That Pill-Grims," has reason to congratulate himself upon having his work selected from the large number of plays submitted in this year, at least six of which, in the opinion of Coach Francis, were better than anything which has ever before been written in this line at the Institute.

Malcolm is from Somerville, having prepared at the English High School. He has before attempted anything in this line, but was connected with the "Left Tower Garden Wall." He took the part of Red Willowside and made a great hit.

Sidney A. Malcolm, 1909

In his songs he added some extra verses besides interpolating several "aides" into his part, which easily won him a place at the Smith College performance. The score of his hero Grims, along with the origin of some of our modern institutions in the customs of the pilgrims, shows his genius. Malcolm spent his last summer's vacation in Plymouth, where he studied the town and became acquainted with several of its typical characters. He has introduced some of these ideas and a good deal of the local color into his play, the first act of which takes place in Holland, and the second in America, after the landing of the Pilgrims.

It is hoped that Malcolm will be able to take a part in his own play, but whether he will or not is a question, for he is particularly busy in his senior year. Malcolm has, however, suggested the titles of 15 or 20 possible lyrics besides those upon which he is working at present. The first set of these lyrics is due Saturday, so that the music writers may begin the early parts of next week to compose the music. There was a group of about 15 men working on these lyrics.

BASEBALL PROSPECTS
Many Volunteer—Meeting Today-—Managers will be Chosen

Judging from the answers to the request that those interested in the formation of a varsity baseball team have their say, it may be said that a varsity sport will be well supported at Tech.

On account of the early closing of school the season will necessarily be much shorter than at other institutions, but that should not hinder the team's spirit.

Men who have played four years at other colleges or who have good experience, but that should not hinder the team's spirit.

The results were as follows:—Wellesley 1909, defeated Von Alstine 1909, 6-2, 5-7, 6-2, Blooming 1915, defeated Blackwood 1914, 5-7, 6-2. In addition to the above, Coach Francis has received a letter from Mr. W. C. Alpert, 1910, requesting that he be allowed to play for the team. The letter is to be read at the meeting, and the manager is to be asked if he desires to make the request.

At the weekly meeting of the managers of the baseball team, held last Thursday, the following was decided:—

1. That the team should meet at the Y. M. C. A. gymnasium every afternoon until 4:00 P. M. for practice.

2. That the team should meet with the Boston Y. M. C. A., in the Y. M. C. A. gymnasium. The Association team in all probability will be composed of W. C. Bowers and M. Pierce, both Harvard 1909, and Dr. Brewster of the Y. M. C. A. They have been practicing for two weeks. Their manager is Francis, and this manager will preside at all meetings.

The first set of these lyrics is due Saturday. W. C. Bowers, manager of the team, has already had a chance for them to do something. He has made the manager's motion, and he is expected that the request will be granted.

Jerome Schouler, 1910, won the tennis singles in Technology's fall tennis tournament by defeating H. P. Farrington 97, in the final match by a score of 6-3, 6-1, 6-2. Early in the tournament it was evident that the chief agents for the championship were T. R. Parker 111, J. Schouler 1910, and E. M. Westworth 1908, of last year's tennis team. H. P. Farrington 97, and W. C. Alpert 99, of the two college competitors entered in the tournament, the largest number that has ever come from this sport at Tech.

Two surprises came in the first round when Sweet, who entered the Institute,
