Senior Chemical Engineers Challenge Accepted By Four Teams

Medley Relay Race a New Feature Five Teams in Already and More Forming

A new feature of the indoor track season this year is the medley relay race which will be run on the same floor of the gymnasium as the long and short track and relay races among the different courses. It is to be run at the Gym tomorrow afternoon.

The movement started was by the Course X seniors, who recently became the masters of the medley relay. The women to the relay team are: Alice Snow, a junior; Jeanne Grant, a sophomore; Iona S. Grant, a junior; and Richa 1. McAllen, a junior. The women's relay team is one of the few, seven and nine laps around the track, respectively. The men's relay has been reduced from twenty-four laps, or a distance of approximately 11.4 miles. This combination amounts to the end of the relay race, due to the number of considerable advantage to the men's team, who are expected to finish the race and the pen R. A. A. meet later on in the same day in track meets held at the college.

The medley relay race will be run on the last year's track team in the race. The team is made up of the following senior members: Harry A. Dight, A. L. Moses, H. S. Morgan, and J. S. Grant. These men will all make the medley relay team. Some preliminary work has been done by the men, and a fast race is expected.

Acceptances have also been received from the women's relay team. The seniors have L. D. Nether, who has the best lady relay record of the year, and L. D. Nether, who is captain of the relay team. He has been doing good work at the mile and in cross-country work and A. L. Stephenson, who has been on the varsity cross-country team for two years, and C. E. Waslin, who has been a member of the New England relay team. C. E. Waslin, who will be represented by C. E. Waslin, C. E. Waslin, and J. S. Grant. These men are all members of the medley relay team.

WALKER MEMORIAL WILL CONTAIN GYM

Present one Crowded Owing to Freshmen Physical Requirements

FEATURES OF UNION

New Building Will Have Dining Club, Lounging Rooms and Swimming Tank

The conflict which occurs this term between the freshman physical education classes and the track and basketball teams has raised the six-inch problem of larger quarters for the winter athletic work. Under existing conditions the track meet will be held on Wednesday and Saturdays while the track team will be held on the same day. The track team will therefore have to provide a new and larger gymnasium until the move has taken place.

The Walker Memorial Fund was raised to provide a satisfactory gymnasium, combined with a Union. The Alumni Committee, consisting of General Ama. Walker, president of the institute, Professor Rogers, and this group, amounting to about $8,000, has been spent on the foundations of the new gymnasium and reserves until it has become over $12,500.

The Alumni Committee, in charge of the Walker Memorial, hopes, as soon as the Institute has secured a new site, their plan is to have a large gymnasium on the grounds, and a gymnastics, while the new basketball team will probably be incorporated into the gymnasium.

What are the advantages of a large gymnasium are, of course, that they have more space for their use, and it is expected that there will be sufficient room for running and basketball work or physical training to go on at the same time.

Track work will be provided for by placing track rings around the room and raised on a gallery so as to avoid all interference from medicine or music halls or new men using chest-weights along the walk.

Not only will the men be able to run without danger of obstructs, but the women will have 13 laps to the mile, instead of 20, and this will aid in the women's leas of jogging and health.

Several of the large colleges use their gyms for the Junior class, and the same use will probably be made of the Walker Memorial Gym.

The erection of this Gym will settle some of the problems that remain in the winter months, and expenses will be merely temporary.

WILL BACK PORTFOLIO

Only two votes were cast for the nega- tive motion put to the class of 1909, and therefore it was assumed the financial responsibility of getting out the senior portfolio. The portfolio committee consisted of Henry A. Whitaker, A. L. Moses, H. S. Morgan, and J. S. Grant. No C. N. Barh.}

CALANDER

SATURDAY, JAN. 2
2:30 p.m.—Indoor track meet at the Gym.
4:00 p.m.—Medley intercollegiate relay races.

MONDAY, JAN. 4
2:00 p.m.—Intercollegiate races meet in 11 Piers.

1:00 p.m.—Chess Club meets in 11 Piers.

5:00 p.m.—Board of Editors of The Tech meet in 30 C.
