Astronomy Lectures

Professor Percival Lowell is to give a series of lectures on Cosmic Physics, and the Evolution of Worlds. These lectures will be given on Tuesdays at four, P.M., in Huntington Hall. The faculty has requested that all second, third, and fourth year students shall attend. All second year students who do so will be credited with twelve points on this summer reading. The first lecture will be on February 23 and will be on the Birth of the Solar System.

Catholic Club Dances

In Copley Hall last Saturday evening the first annual dancing party of the Catholic Club of Technology was held. The affair proved to be a great success with more than 80 couples on the floor. The Catholic Club has been particularly active this year, and the entertainment had been carefully planned and arranged for several months by the club's officers,—F. M. Heidelberg, 1910, president; J. F. McCarthy, 1909, vice-president, and P. D. White, 1911, secretary-treasurer.

The Catholic Club of Technology

The Catholic Club of Technology was organized in the fall of 1910.

The Catholic Club of Technology has had a very successful year in 1911, with 80 to 100 members maintained through the year. The club has been particularly active in the fall, and will be very active in the spring.
