The Technology Review

A QUARTERLY MAGAZINE
DEVOTED TO THE INTERESTS OF
THE MASSACHUSETTS INSTITUTE
OF TECHNOLOGY

AND
PUBLISHED BY THE ALUMNI
ASSOCIATION

83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to THE TECHNOLOGY REVIEW, 83 Newbury St., Boston.

HARE AND HOUNDS RUN

Plans of Coming Intercourse Run Assignment of Captains

On Saturday there will be a Hare and Hounds run over the Needham course. This course is comparatively new, and is a very good one. Capt. Jacobs 1910, who has been over it a few times, considers it as one of the best hereabouts. The men are to meet at the Back Bay station, and will take the 2.16 train. Arrangements have been made to have a special car for the accommodation of the runners. The round trip fare will be only thirty cents, and a large attendance is desired.

Plans are already under way for the Intercourse race, to be held on April 3. The race will be over the regular course, and promises to be the best in years. The following is the assignment of course captains: E. Jacobs 1910, I and XI; C. P. Eldred 1911, II and VI; J. N. Stephenson 1909, V and X; R. Ellis 1909, III, IV, VI, VIII, XII and XIII. All men expecting to run should report at once to their respective course captains. On Monday there will probably be a walk over the course. Notices will be posted later.

Last year the run was won easily by the representatives of course I. There was a high wind, and running was made very difficult. Howland 1908, won easily, and in very near record time.

The run this year will be a preliminary to the Freshman-Sophomore race on April 17th. The Freshmen have quite a few promising men, and expect to give the Sophomores a good race. 1911 won handily last year, and expect to duplicate the victory.

EARTH LOOSING WATER

(Continued from page 1.)

Mars in being planets without water. The drying up of the earth is shown by the increase of deserts and the drying up of seas which were at one time of immense size. The drying up of the earth is not to be taken as a calamity, nevertheless, as the earth is constantly growing to be a better place to live on, and when the time does come, when the earth is really dry, we will not be here to contemplate it.

MORE MEN WANTED

Politics offer great campaigning opportunities, but the Tech has inaugurated a better campaign, that for the positions on the news and business ends of the Tech. Every fellow has an equal chance with his neighbor, and the chances of winning out are better than those in politics, as the competitors will not have to do any bribing of the "bribe takers." The Business and Managing editors are to be in the Tech office this afternoon to meet all who desire to come out for any of the positions offered.

TALKS ON MOSQUITOES

W. Lyman Underwood, special lecturer to the department of biology, spoke Wednesday to the class in Sanitary Science and Public Health, on the mosquito and its ability to spread disease, malaria fever in particular. As a member of the Belmont Board of Health, Mr. Underwood has had much experience in exterminating the pest in his own town by draining off stagnant water, the application of kerosene, and the stocking of ponds with fish.

LANGENBECK TALKS

(Continued from page 1.)

the glaze) or shivering (crumbling of the clay) may result. The former chemical imperfection is utilized by the Japanese, who craze their ware in artistic patterns.

Dr. Langenbeck's talk was illustrated by a number of specimens which were passed among the audience.

Preceding the evening's talk, nominations for the next term were made, with the following results: For president, George P. Lunt 1910, and R. S. Bicknell 1910; for vice-president, Dudley Clapp 1910; for secretary, R. W. Lewis 1910, and R. R. Taylor 1910; for treasurer, J. R. Bell 1911, and S. H. Lawton 1911. The elections will be announced at the dinner to be held in April.
