

THE TECH

VOL. XXVIII. No. 63

BOSTON, MASS., WEDNESDAY, MARCH 31, 1909

PRICE THREE CENTS

1911 TECHNIQUE ELECTORS PICKED

Result of Election of the
Electoral Committee
Announced

SALISBURY TOPS LIST

Parker, Cooley, Copeland, Denison
Kimball, Van Tassel, Kerr
Next Seven

WILLIAM CONYNE SALISBURY.
THEODORE BISSELL PARKER.
LLOYD CARTWRIGHT COOLEY.
STUART BROWN COPELAND.
ORVILLE BOARDMAN DENISON.
SCOTT PRESCOTT KIMBALL.
EDWARD DEMMING VAN TASSEL.
CHARLES PHILLIPS KERR.
PETER DESMOND WHITE.
HOWARD DAVID WILLIAMS.
LAWRENCE GLEASON ODELL.
DONALD READ STEVENS.
JOSEPH CHEEVER FULLER.
RICHARD HOWLAND RANGER.
CALVIN POWELL ELDRON.
CHARLES FOSTER HOBSON.
EDWARD ANDERY NASH.
WELLESLEY JOSEPH SELIGMAN.
CHARLES HUDSON MERRILL.
HAROLD MARTIN DAVIS.
JOHN LAVELLE McALLEN.
RICHARD HARTSHORN GOULD.
HUBERT STACY SMITH.
FRANK ASAH EL WOOD.
ROBERT ODIONRNE WOOD.

Returns from the election to the 1911 Technique Electoral Committee were received last night. By virtue of having paid all class dues to date 191 men in the class were entitled to vote on the electoral committee ballot. Of these 145 ballots were returned and 140 were counted. Five were thrown out on account of having 26 or more checks on the list.

The highest vote easily went to President W. C. Salisbury who polled 108 counts. T. B. Parker, the class vice-president, and well known as a basket ball, tennis and base ball player, made a good second with 95 votes. L. C. Cooley, manager of the class relay team and director of the class was third with 90 points, while S. B. Copeland, the class treasurer was close at his heels with 82 votes. O. B. Denison, member of the Tech board and of Tech Show fame was the next man and pulled a vote from 72 men.

The other men elected to the committee received votes as follows: S. P. Kimball 71, E. D. Van Tassel, Jr. 68, C. P. Kerr and P. D. White were tied with 62 each, H. D. Williams 60, L. G. Odell and D. R. Stevens were tied with 59 each, J. C. Fuller 58, R. H. Ranger 55, C. P. Eldred 51, C. F. Hobson 49, E. A. Nash and W. J. Seligman tied with 48, C. H. S. Merrill 45, H. M. Davis 44, J. L. McAllen 43, R. H. Gould 40, H. S. Smith, F. A. Wood and R. O. Wood were all tied with 38 votes.

The men who received over 20 votes and did not make the committee are published below:

N. DeForest 34, K. Faunce 34, M. A. Grossman 33, K. Barr 32, D. C. Bakewell 32, H. C. Davis 32, K. Greenleaf 32, G. B. Wilkes 32, J. D. Mackenzie 31, M. Coffin 28, W. W. Warner 27, J. A. Bigelow 26, G. B. Curwen 26, W. D. Allen 24, C. R. Johnson 24, C. T. Morey 24, D. N. Frazier 23, I. W. Wilson 23, W. C. West 22, T. H. Haines 21, H. G. Jenks 21, J. Scoville 21, A. W. Underhill, Jr. 21, J. K. Campbell 20, L. G. Fitzherbert 20.

The first meeting of the committee will be held Tuesday, April 6, in the Union.

A meeting of the Board of Directors of the Class of 1911 will be held in the Union at 1 P. M. tomorrow to elect a member of the A. A. Although this is a meeting of the Directors, all members
(Continued on page 4.)

DUAL GYMNASTIC MEET TONIGHT

Tech Team Faces B.Y.M.C.A.
Aggregation on Their
Own Floor

MANY NEW STUNTS

Marked Features in Horizontal
and Parallel Bar Work—
Open Meet

Tonight at eight o'clock in the Boston Y. M. C. A. the Tech gym team will meet the Y. M. C. A. team in a dual gymnastic exhibition. The Tech team will be made up of: R. L. Carey, 1909; R. C. Jacobs, 1910; A. Hague, 1910; C. W. Wilson, 1910; H. S. Gott, 1910; W. D. Allen, 1911; J. F. Alter, 1911 and S. H. Seelye, 1912.

A number of new stunts will be performed. On the high horizontal bar Allen and Gott will do the back and front giant swing with fly away. The parallel bar work will be taken care of by Seelye, Gott and Hague. The latter will attempt one of the most difficult of all stunts, the hand stand walk with reverse and one arm stand. Hague will also do the tumbling and mat work together with Wilson and Jacobs. Gott, Allen and Jacobs will perform on the rings and Cary and Alter on the horse. Benzie, the crack gymnast who was recently sent to New York, will probably star for the Y. M. C. A. team.

The Tech team receives a remuneration for its work and is to be entertained by the Y. M. C. A. at the close of the exhibition.

Those who intend to enter the open prize gymnastic meet at the gym on April 5, will have a good opportunity to get a line on some of the new stunts. This April 5 meet will close the gymnastic season. It is open to all members of the Institute and will include as a special feature a prize boxing contest. This is in charge of H. D. Billings, 1910. All entries should be in by next Saturday, April 3. The entry fee is ten cents.

ELECTRICAL NOTES

Institute Professors Make Test on Turbines at West Lynn

Professors E. F. Miller and H. E. Clifford have completed an acceptance test upon a Curtis Turbine at the West Lynn works of the General Electric Company. This turbine which is rated at 600 H. P. and 1800 R. P. M. is one of twelve which are being built by the General Electric Company for the city of San Francisco for use with centrifugal pumps in the city's fire-boats and in the new high-pressure fire-service.

Mr. O. S. Jennings, M. I. P. 1908, has since February first occupied the position of assistant in the Standardizing Laboratory while Mr. H. L. Burgess, 1908, has occupied a similar position in the Electrical Engineering Laboratory.

Three new three-phase oscillographs designed by Prof. F. A. Laws and constructed at the Institute are now in the process of erection in the Standardizing Laboratory.

CATHOLIC CLUB MEETING

A meeting of the Catholic Club was held in the Union last night. The Rev. Slechy of St. John Seminary, Brighton, gave a most interesting and instructive address on the Darwinian Theory. He discussed the question with some regard to its reconciliation with religion.

All who have attended any of the Thursday evening talks by Dr. Mann are asked to be at Dr. Mann's house, northeast corner of Newbury and Clarendon, at 7.30 tomorrow evening, to decide what will be done next year.

1911 CLASS MEETING ASSESSMENT LEVIED

Nominations for Institute
Committee to be in
Saturday

DIRECTORS ELECT MEN

Vacant Positions to be Filled at
Open Meeting of Directors
of Class

A meeting of the class of 1911 was called in Huntington Hall on Monday at one o'clock, with but few members present. The meeting was called to order. President Salisbury first spoke of the necessity of levying an assessment of twenty-five cents. Although in a previous meeting he was empowered to levy an assessment, of fifty cents, in case all men pay twenty-five cents, it will be sufficient.

The primary object of the meeting was to determine what method was to be pursued in the election of a man to fill the vacancy on the Athletic Association, due to the resignation of G. A. Cowee, the nominations for this position being already closed. At the same time provision was to be made for the nomination and election to the Institute Committee owing to D. R. Stevens' resignation.

It was suggested that the directors elect men to fill these positions, thus avoiding the cost necessary for the printing and marking of ballots to each member of the class, and also the delay entailed. Several objections were made to this arrangement. It was felt by many that the elections thus made would not represent the real desire of the class, also that it would in a way establish an undesirable precedent. On the other hand, since there may be but two more meetings of the Athletic Association, some thought the printing and mailing of separate ballots an unnecessary and uncalled-for extravagance, as well as a useless waste of time.

The motion as finally passed was as follows: Nominations for the Institute Committee be made from the class at large.—these nominations shall be signed by ten members of the class, the directors at some stated meeting, to be thrown open to the class, shall elect a man from these nominations to fill the vacancy on the Institute Committee, at the same time they shall elect a man to the Athletic Association from those nominations already in.

Nominations for the Institute Committee will be closed on Saturday, April 3, at noon.

SAVILLE WILL SPEAK

Dinner of Biological Society to be at Technology Club

Mr. Charles A. Saville 1906, will speak at the dinner of the Biological Society, to be held tomorrow evening, at 6.30, at the Technology Club, on the Engineering Work of the Massachusetts State Board of Health. This work includes the subjects of water-supplies and sewage disposal and other matters in which engineering unites with bacteriology to protect the public health. Mr. Saville is well qualified to handle this subject, as he is assistant to the chief engineer of the Board, and thoroughly conversant with all the work it is doing. This talk, in addition to being interesting to the biologists, should be especially interesting to the sanitary engineers, as it is directly in line with their future work, Mr. Saville himself having graduated from course XI. For this reason, it is expected that there will be a larger attendance at the dinner than usual. In addition to Mr. Saville's talk, there will probably be some informal speaking by members of the Society.

BERTIN TO GIVE LECTURES SOON

Naval Architects' Course
Given During Week
of April 11

LECTURES IN FRENCH

Bertin Coming to This Country
Especially for These
Four Lectures

Mon E. L. Bertin, chief constructor, retired, of the French navy will give his special lectures to the naval architects during the week of April 11. There will be four lectures in all; the first, Monday, April 12, on "The Rolling of a Ship Among Waves;" the second, Tuesday, April 13, on "The Stability of Ships after Injury;" the third, Thursday, April 15, on "Manoeuvring Ships," and the last, Friday, April 16, on "The Development of Modern Steamships, especially of the Compagnie General Transatlantique." These will all be held at 4 P. M. The room has not yet been decided upon but it will be announced later. These lectures are given for the benefit of the naval architects of course XIII and XIIIa, but all who are interested in the subjects are cordially invited to attend.

The lectures will be given in French, but for the benefit of those who are not able to understand the spoken language as well as the written, typewritten copies will be distributed to all attending these lectures. In addition, the necessary diagrams and illustrations for each lecture have been printed and will be given to those who wish to keep them for future reference.

Every year special lectures in some department of the Institute are given, and this year the department of naval architecture was fortunate in securing Mon E. L. Bertin to give these lectures. Mon. Bertin is a member of Institute de France, an officer of the Legion of Honor, first rank, and was formerly Director de l'Ecole d'Application du Genie Maritime. He is the leading expert and scientist of the French navy and is universally known for his work in the field of naval architecture. He has designed a number of notable war-ships, both French and foreign, besides numerous merchant vessels. Recently he has taken up the subject of submarines and is now devoting his attention to their design. Mon. Bertin is making the voyage here especially to give these lectures.

He will arrive the end of the week preceding the lectures and will return to France the week following them. He has been to America before and is familiar with Boston.

ALUMNI NOTES

The Technology Club of New York city held its last smoker in the present club house, March 27. Prof. Chas. M. Spofford of the Brooklyn Polytechnic Institute, recently appointed Hayward professor of civil engineering at Technology, gave an illustrated lecture on "Making of Structural Steel."

The annual reception and dance will be held at the Waldorf Astoria hotel, April 16. Dr. and Mrs. McLaurin will be the guests of the evening.

CALENDAR

THURSDAY, APRIL 1.

1.00 P. M.—1911 Directors in Union.
4.15 P. M.—Glee Club Rehearsal.
8.00 P. M.—Biological Society at Technology Club.

FRIDAY, APRIL 2.

4.15 P. M.—Mandolin Club Rehearsal.
