In the quarter, there are several good men, and this is the only distance in which Coach Kansly is satisfied. In J. I. Murray, 1912, Kansly thinks he has a find, if he will only train, and report regularly. "Bell" Salisbury in 1911, is also running in good form, and he is without doubt as fast, if not faster, than he was last year. Besides these, there are P. J. White 1912, A. L. Moss 1910, M. A. Oettinger 1912, and S. E. Reed 1913.

The half-mile has only one real good man, White, although May Allen 1910, is showing up reasonably well at this distance. It is hardly possible, however, that he will run, as he is needed in the hill jump, where he is doing good work. To aid White there only three other men who are so far to be considered. They are F. E. Bell 1910, H. L. Lockett 1911, and C. L. Tailor 1912. Bell and Lockett are improving rapidly, but Tailor has not yet worked at this distance on account of cross-country work.

The cross-country men will be expected to produce some good work in the mile and two-mile. Of these the most likely is R. C. Holber 1910, who is doing surprisingly good work, and H. H. Howland 1910. Other good men are E. M. Potter 1910, W. T. MacAndrew 1911, J. F. McCarthy 1909, W. A. Allen 1911, and H. S. Benson, and H. G. Watkins 1912.

ATTENTION, SENIORS — Whom have you placed your theses stenography work with? Will you give it to me and have it done right? Satisfaction guaranteed and rates reasonable. Experiences of T. H. White, 1910. Call or address Ben. Hammond (twin of class 90), 33 Summer St., Bos- ton, Mass.

M. H. S.—Funeral, Thursday, Apr. 16, at 3 o'clock, at the Union. A 14.

Washington, D.C., May 12, 1910

The Tech takes pleasure in announcing the appointment of George Edward Hodge 1911, to the news staff.

Technique 1910 will be a big surprise. Those who know say that the emphasis is on the "big." Certain it is, at any rate, that this year's annual will be unique in many respects. All the usual characteristics of former Technique will be found adhered to, but in many details many new departures may be looked for. It is rumored that all the surprises will not be confined between the covers, but that even in the Rush some elements of novelty may be expected.

With Junior Prom less than two weeks away and arrangements practically completed it seems about time that all the men interested to go signed up with the committee. Two hundred tickets are needed to make it from a financial success, but as yet less than a hundred and sixty have signed. The biggest social event of the year, the one that lasts only one evening, provides a unique opportunity of pleasure to the participants, may be in grave danger. Other institute activities have come and gone and there is a fear that the failure of the men to take enough interest to insure success. Don't let the Prom go!

Wake up! Are all the athletes at Tech asleep? The intercollegiate relay meets at Philadelphia are less than two weeks off and the number of men who have been thinking too much is very small. In spite of the existing efforts of a most splendid coach and a considerable layout of money there are improvements at the Field. The response of the men is disappointing. The men are scantily shoveling up at all, and they should be the champions of a championship track team this year.

It has been given as an excuse for this apathy that there are no dual meets. This very fact should be rather a reason why more men in order to get in shape for the intercollegiates, should put out and do it now. The senior class has never won a meet of any kind except their sophomore Field Day. There are three individual events and a new class championship cup, presented by Mr. and Mrs. W. H. Briggs, to be competed for in the spring meet which comes off in two weeks. At the beginning of the season the prospects of a good meet are not too bright. The evening races at the intercollegiates are excellent; at present, last place seems more probable unless every man gets out and works.

K. R. Furnish 1909, now declares that he will not run this spring. While this will not in any way cripple the relay team, it leaves a big gap in the low hurdles, in which Furnish was expected to get second place. Capt. Carl W. Green 1909, is not able to report regularly on account of his studies, but Coach Kansly hopes he will be able to win several points for the Institute. W. J. Seligman 1911, is another man who is failing to report. Seligman is absolutely sure of a place in the 220 if he only runspast once or twice a week. At present the only man in the relay team in 220s, is Grant, the star freshman. He is by all odds the fastest man at this distance, and he is also doing good work in the low hurdles. In the 220 there is no one but Grant and Reed 1912.

MISS M. F. FISK

The red glove shop
322 Boylston St., opp. Arlington

Miss M. F. Fisk is showing a handsome shade in men's chamois gloves at $1.50 a pair. Other makes retail for $2.75 but her price is Fowkes and Dent's in the popular cape leather in handsome shades of tan.
