Signs of Spring! The board steps have been removed from Rogers and asterionella found in the Union water.

The Chess Club has for some years been dormant. This year under efficient officers it has taken a new lease of life and assumed a prominent place in the life of the Institute. Many men have found it a welcome opportunity to meet their fellow classmates outside of the recitation rooms and the chances are that some of them would have found no

such opportunity were it not for the resuscitated Chess Club.

Evidently there is a call for more such opportunities and it is probable that the existence of the Union has not only in part brought about such a demand, but has made the demand easier to fill. Efficient, energetic, and interested officers and plenty of advertising is evidently the key to the solution.

The record of next Saturday's Rush will be preserved for posterity. That is, posterity may see it if it wants to, but, what is more to the point, the present generation, after the heat of the scrimmage, may proceed downtown and see it over again, truthfully projected upon the screen. Needless to say the introduction of the vitagraph will put a quietus on many of the rush stories of "How I did It," and will give an impartial account of the actual occurrences. If the weather is good Saturday, it is probable that a film will be taken that will give the Technique Rush its deserving national reputation.

More honor and responsibility has been assigned by a class to its committee. This time 1909 has signified its choice by naming 26 members for the Class Day Committee, which will take charge of the students' share of the commencement festivities. These men have been chosen largely on account of their past services to the class, and the positions are perhaps not so largely a symbol of present work as of past achievement. They have much to do in the next six weeks, however, and upon their efforts depends a great deal of the success of the social events in June. The class appears to have chosen wisely, and with as able men on its list as are there, it should expect that its work will be harmoniously and successfully accomplished.

COMMUNICATIONS

Editor of The Tech:

The following self-explanatory letter received by the Dining Room Committee should do away with any concern which may have arisen over the taste of the drinking water at the Union Dining Room. The letter is given below:

"The taste in Boston water is due to the presence of an unusual number of a small diatom-asterionella by name. The low water all winter and the quick flooding by melting snow and rain has seemed to permit a sudden growth. It is entirely harmless and the taste will pass with the coming of warmer water, we expect. There is no occasion for alarm."

Very truly,
ELLEN H. RICHARDS.

RELAY TRIALS SOON

Team Will Be Picked Friday or Saturday of This Week

Trials for the relay team to compete in the Pennsylvania relay carnival next week will be held this week, on either Friday or Saturday, depending on when the entries close. Coach Kanaly plans to have all the men who are now training at the Field at any distance up to the half mile take part in these trials, and from them the team of four men and one substitute will be picked. The men who have been running this spring, from whom the team will be picked are: Capt. Carl Gram 1909, W. C. Salisbury 1911, W. J. Seligman 1911, A. L. Moses 1910, P. D. White 1911, W. J. Seligman 1911 and S. E. Reed 1912. Gram, Salisbury and Moses were members of the indoor mile relay team which did such good work at the B. A. A.

games this winter, while White and Seligman have shown their ability in numerous meets and Reed has been doing good work this spring. With these men to chose from the team selected ought to be able to more than hold its own with its opponents at Philadelphia.

BASEBALL AT MALDEN

1911 to Play Malden High Today
Good Game Expected

This afternoon the sophomore ball-tossers clash with the fast baseball team from Malden at the latter's home grounds. Malden has a reputation on the diamond that speaks for an excellent contest, as with the exception of the pitching staff the 1911 team is in fine shape for the second game of the schedule. The team is depending largely on their batting ability and with such sluggers coming to bat as Parker, McLaughlin, O'Neil, Odell and Williams the squad should pull out a winner. The team lines up as follows:

Oneil, 3rd; Parker, short; Huffsmith, 2nd; Williams, catcher; Odell (Capt.), 1st; Harrington, left; McLaughlin, center; Metcalf, right; Pearson and Parker will pitch; Stevens, sub-catcher; Robinson and Yearance, substitutes.

With a freshman battery the California varsity team defeated Stanford 5-3.

The Princeton Tiger has stopped printing corset advertisements.

The Kansan, the University of Kansas paper has offered a cup for the best all round kicker on the spring football squad. About 25 men are reporting regularly for practise.
