Technique 1909 is awaited with keen expectation by the seniors.

Get out your football tags again. Not for spring practice. For the Technique Rush, Oct. 5.

Pay up for From at once! The com-
mitee is delayed because of the fact that no class has paid up and it has not turned over the necessary five dollars.

In view of the fact that last year the freshmen failed to "score" in the Technique rush, it will be interesting to see what sort of fight 1910 will put up to-morrow.

Our present freshmen have shown their prowess once more emphati-
cally, and if we are to judge from what we have gathered from the faculty, the Technique 1910 rush will be another feather in its cap, so far as the lower classes are concerned.

Tech has a defeat to retrieve at Philadelphia next Saturday. Whether this will be done depends upon the kind of men that show up at the Field this Saturday for the trials for the team. It is up to the men at the Institute who can run some to get out and do their best to make the team, then to do Credit union directly. If the fastest quarter-milers will go out and work, there is no reason to look for anything but a victory at the Penn relay games next week. It is high time that the men who can do things at Tech should go to it since none but the best at the position near the critical and pray in any kind of a contest. Are you doing your share?

There will be no issue of The Tech on Monday, April 18, or on Wednesday, April 21. The regular Monday issue will be published tomorrow at twelve o'clock. This will be an eight-page sou-
venir of Junior Week, containing full part-
ciples of all the events of the week, with pictures of the Tech staff and prominent participants in the other affairs. Everyone should procure it as it may be the last chance one has of obtaining tickets.

At a meeting of the Institute Com-
mitee Wednesday afternoon, it was decided to have an advisory board app-
"11ed from the new Alumni to act in conjunction with the Insti-
tute Committee in deciding on student activities.

FIRE FIGHTING

(Continued from page 1)

Superiority of the oxygen device on a fire truck is due to the fact that this device allows firemen to deliver a jet of air of sufficient power to overcome the pressure of the flame in the oxygen occurs in the oxygen chamber of the oxygen device, the oxygen escapes from the jet of air onto the oxygen and the oxygen jet is directed to the fire. The oxygen jet is directed to the fire by a special valve.
