DR. TALBOT DINES
SENIOR CHEMISTS

EXPERIENCE IN BUSINESS

Life is Subject of Speeches

WHITNEY'S SOLUTION

Of Personal Equation — Practical Men and Professors Advise
Early Experience

With about 65 men present, Dr. Talbot's dinner to the Seniors Wednesday evening proved to be one of the most delicious and enjoyable affairs of the season. At 6:30 the guests sat down to dinner in the Union to which the speakers lasted until about 8 o'clock.

Dr. Talbot, the first speaker of the evening, spoke on the subject of 'Modesty and Advancement' as the keynote. He emphasized the importance of taking one's responsibilities in the position assigned to one, and stressed the necessity of being modest and not allowing one's self to be too condescending in one's dealings.

Prof. H. K. Spencer, who is now in the employ of Mr. Hubbard, spoke of the experiences in his career which he has been able to build upon to hold positions of the highest responsibility. His advice to his hearers was to get with men who are ambitious and to try to be too much of a hurry to get position. He also advised them to look for the experience which will later on be of value to them.

The next speaker of the evening was Mr. H. B. Whitney, the president of the General Research Laboratory of the General Electric Company. He spoke on the importance of experience and advised the men not to be too hasty in their ambitions. He suggested that they should aim for the positions which will add to their competence, rather than the salary which might be offered.

Several Changes in Order of Tennis Ranking

Several changes have been made in the order of tennis players. The list of the top 10 players has been greatly altered as a result of recent games. Capt. T. H. Parker defeated W. J. Pritchett 6-2, 6-3, 6-2, and Capt. T. H. Parker defeated F. W. Conville 1901, and now holds the number one place in the tournament. F. W. Conville, who held third place last year, is in second place this year, and Capt. T. H. Parker is in third place.

Mr. C. A. Stone of the firm of Stone and Co., who is a member of the firm, was also present at the dinner. He spoke on the importance of combining theoretical training with practical experience, and said that he believed that the students should try to get experience in the actual life of the industry.

The next speaker, Dr. Whitney, of the Research Laboratory of the General Electric Co., said that the students should try to get practical experience in their fields of study. He advised them to try to get experience in the actual life of the industry.
