THE TECH PLANNING TO START A DAILY

LARGE FIELD FOR MANY NEW DEVELOPMENTS NOW UNDER WAY

MORE MEN WANTED

Many Opportunities for All Who Will Report Today at The Tech Office

Believing that the interest of the Institute and of the Institute activities will be best served by a daily newspaper, the editors of The Tech are seriously considering the advisability of changing from a monthly to a daily, next October.

New Departures—College Notes.
The daily newspaper will make possible the expression of all opinions. Under present conditions, with the speed of the telegraph and telephone, the discussion and editing of articles takes place in less time than it used to take to write the articles. The delay is due to only a few minutes. The question of speed is one that calls for some consideration.

Current Events.
Recent events in the world at large will be given full coverage, including the stock market, foreign and domestic news, and the week's important events, and will be distributed throughout the country.

Undergraduate Activities.
All Tech news will be very fully covered. The best and latest news will be featured, together with the best of the week's events, from the standpoint that they have always been.

Alumni and Friends.
Stories of the men who are being featured, whereby alumni news will be reported, and the best advice that they have to give. Here in the Institute news from the departments of the College will be very fully reported, and very frequently fellows in the upper years of the course will have a chance to tell what they are working on and outside interests that they are interested in. It will be a true account of the inside workings of the other departments.

Undergraduate Enterprise.
With the coming of the new Union there has come a boom in all undergraduate enterprises. The social life of the Institute will be greatly improved. As the enterprise grows, it will become stronger. The men are becoming more interested, as for instance in the case of the Institute this year, when the printing plant was opened, and the founding of the Wireless Society. There are many more.

New Opportunities as Staff.
The new daily will be in keeping with the new Institute. All the major events will be covered. There will be a large number of opportunities for all men interested, especially new men. The editors will be more than willing to take advantage over next year's freshman class in every way possible.

Exposure, Uncertainly.
It is to be hoped that the new paper will find the work extremely interesting and also enable him to maintain his place, and all those who take part in the Tech. The tech offers attractive inducements as any.

ENCOURAGING WORK

Our Chances in the Intercollegiates Are Now Very Much Improved

Coach Kanaaly Picks Tech For Third Place In Meet

About 1200 students gathered in the Union last Friday noon to arouse some interest in the coming Intercollegiate meets. Coach Kanaaly, who spoke of the lack of spirit that was prevalent here at Tech, urged that all men, whether they be of many or small colleges, come out and prove to the world that the enthusiasm that enabled the freshman class to take second place in the inter-class games.

The meet will be held at Cambridge on May 17, 1910, and the men will be from the Harvard, MIT, and other small colleges.

BALL GAME POSTED

Owing to the inability of several of the members of the Tech baseball team to get together in time to play, Captains W 'e ston and Foster, the two ends, called off the second baseball game that was to be played today.

The game is now to be played some time this week.
