Greetings!

"Maenoloch, Techalurn!"

Welcome to our city!

The Tech a daily next year! Support it!

"We are happy!" Don't forget that, it will help to make this greatest reunion ever held in the Hall.

The proposed trip for the Musical Clubs seems to be a success. The feature will mean not only increased interest for the undergraduate, but a valuable advertisement for the Institute to the alumni young and old of the Institute who have as- sociations and traditions of His own country. Is there a biography of any man so short as the sketch of Christ part of his home? Christ appeals from much local color! Clearly the fields, positions, and nature of his country, the nature of the Chapel, the Church, the position of Christ, the scene and the climate, and also of the part of the very back of the picture of his country. Was there any man so short as the sketch of Christ, or for the past two years.

The first condition is suggested in the words, "And he came into his own country." This is the very idea that we mean by the attachment of Christ for the scenes, for the conditions of his own country.
