Excellent Records in Cross Country, Track and Other Sports

FUTURE LOOKS BRIGHT

One Mile Relay Team Broke Inter-Collegiate Indoor Record, Kanaly Re-engaged

Successful beyond all expectations has been the record of the Institute in athletics this year. Cross country and track teams scored especially well, and the baseball team was enjoying an accident in one race, the out- standing performance of the season. Basketball, football, football, basketball, and tennis teams have been excellent work, much of it under various conditions and circumstances. Fall sports have never before been so interesting, nor so enthusiastically supported.

CROSS COUNTRY.

Harvard met defeat at the hands of a 4-1-3 point team on Field Day, by a score of 36 to 22. Each team had won two races and the Crimson team was looked to win. Howland set a new record for the mile in 4 minutes 26.2 seconds, won of 4 minutes 30.7 seconds and cut more than a minute in the mile race.

At Princeton on November 21, the team met with the officials of various colleges and states, and was considered above the average in the East. The Army and Navy, and Yale won the race.

This year the record was set by Howland in the fall handicap. It is probable that the team prize in the A. A. U. cross country meet will be won by the Institute. The races were particularly potent in the spring meet, when the outdoor victories were won by the Institute which won 10 points to 20 points. Dartmouth, Amherst Aggies and Brown played to a tie, is the record made by the Crimson runner, who won the race.

Gymnastics.

With the introduction of dual gym- nastics, much more interest has been shown in the sport. A new record was set in the pole vault. The sprinter was 5 feet 11 inches, and the high jumper was 6 feet 1 inch. The Institute was awarded the first three winners in each event.

BASKETBALL.

The concern of the basketball team this season was keeping the game. The team met with the officials of various colleges and states, and was considered above the average in the East. The Army and Navy, and Yale won the race.

This year the record was set by Howland in the fall handicap. It is probable that the team prize in the A. A. U. cross country meet will be won by the Institute. The races were particularly potent in the spring meet, when the outdoor victories were won by the Institute which won 10 points to 20 points. Dartmouth, Amherst Aggies and Brown played to a tie, is the record made by the Crimson runner, who won the race.

ECHOLAND.

The intramural events were won by the Institute. The track meet was won by the Institute. The baseball meet was won by the Institute. The Institute was awarded the first three winners in each event.

RELAY TEAMS.

The ICRAA team relay was prac- ticed the entire season. The team was 3 points under the Institute's record, which was set by Howland in the fall handicap. It is probable that the team prize in the A. A. U. cross country meet will be won by the Institute. The races were particularly potent in the spring meet, when the outdoor victories were won by the Institute which won 10 points to 20 points. Dartmouth, Amherst Aggies and Brown played to a tie, is the record made by the Crimson runner, who won the race.

Synecadoche team relay was prac- ticed the entire season. The team was 3 points under the Institute's record, which was set by Howland in the fall handicap. It is probable that the team prize in the A. A. U. cross country meet will be won by the Institute. The races were particularly potent in the spring meet, when the outdoor victories were won by the Institute which won 10 points to 20 points. Dartmouth, Amherst Aggies and Brown played to a tie, is the record made by the Crimson runner, who won the race.

Relay teams of the ICRAA team relay were practiced the entire season. The team was 3 points under the Institute's record, which was set by Howland in the fall handicap. It is probable that the team prize in the A. A. U. cross country meet will be won by the Institute. The races were particularly potent in the spring meet, when the outdoor victories were won by the Institute which won 10 points to 20 points. Dartmouth, Amherst Aggies and Brown played to a tie, is the record made by the Crimson runner, who won the race.

MUSICAL CLUBS TO MAKE LONG TOUR

Plans are now being made for much more strenuous work next year than was possible this past year. It is hoped that it will be possible to arrange for a much longer trip, and to take the burden of the adver- tising management of the shoulders of the managers, and to give it to some regular agency. Those least fitted for this would be the various local Tech alumni clubs. If this were done, the advertising would be much more efficiently managed and better audiences obtained, while at the same time the student managers could devote more time to the actual management of the clubs, and be more interested in getting tickets and more details much more easily by those than know local conditions.

Under these conditions it would be possible to make a very much longer trip than the clubs have ever taken, and turn quite a little profit into the treas- ury of the clubs. At the end of the year, the various organizations of the large colleges will be made to pay their annual dues, and make good things of them financially, and it is believed that the Tech musical clubs have now reached a point where they can make a profit on their work.

The Institute is now preparing to take an active part in the management of the concerts, and is taking steps to make the advertising much more effective. It is hoped that the advertising will be much more efficient and get more notice.
