GOLFERS TO ORGANIZE
SALISBURY LEADS TEAM
Work For Season Planned
Good Chances Open

PIANS are being laid for the organization of the golf club, and it is hoped soon to have their outline of the season's work complete. The organization of the golf club will be held Thursday, at 10 o'clock, in 23. It is hoped that the interest in golf will be present.

C. W. Saltsbury, 1911, is the only one still in the institution, so a large part of the work of organization will naturally devolve on him. The last season in golf was fairly successful, and there is every prospect for a good one this year. The full tournament last year was very good and considerable interest was shown by the custom not only of the institution but also by the colleges and schools.

From the above it may be seen that the golf club is in a wonderful position. The first lecture will contain the seal of the Society, which was purchased two years ago at a cost of $20.00. The club is now in a position to purchase a large number of shirts, which will be of the highest quality and will be a great improvement on the present shirts. The shirts will be made of the finest material and will be of a pleasing design. The shirts will be of great value to the golf club, as they will provide a means of identifying the members and will be a great improvement on the present shirts.

The golf club is also planning to organize a team for the season. The team will consist of the best players from the institution and will be under the direction of the captain. The team will meet once a week and will be ready to be called upon for service. The team will consist of six or seven hundred men, and it is expected that they will be ready to compete immediately. The team will be under the direction of the captain, who will be responsible for the organization and management of the team.

There are some six or seven hundred men in the institution who are interested in golf, and it is expected that they will form the nucleus of the team. The team will be trained in the principles of theoretical and practical golf, and will be prepared to meet the demands of the season. The team will be under the direction of a trained instructor, who will be responsible for the training and management of the team.

The team will be equipped with the finest equipment, and will be ready to compete with any team in the country. The team will be under the direction of a trained instructor, who will be responsible for the training and management of the team.
