BOSTON, MASS., WEDNESDAY, OCTOBER 13, 1909

PRICE ONE CENT

### TREASURER'S REPORT SHOWS BALANCE OF \$45

#### 1911 Reduces Junior Year Dues To \$1. Nominations For Officers

With the record breaking attendance of about one hundred and fifty men, the junior class held its first class meeting of the year in Huntington Hall yesterday at 1 P. M. President Salisbury stated that an electoral committee was to be appointed today and that class nominations were in order for president, vice-president, treasurer, secretary, clerk, five places on the athletic association, two on the Institute committee and two on the executive committee. These nominations are to be signed by ten members of the class and left at the Cage for the committee. The polls close at 4:00 P. M., Tuesday, Oct. 19.

D. R. Stevens, editor-in-chief of *Technique* 1911, issued another call for candidates for positions on the staff. There is a very good opportunity for men on the business and art staffs, and word left at the Cage will reach the board. F. A. Moore, the business manager announced that his assistant, C. T. Morey, will meet candidates Tuesday at 4:15, at the Union.

S. B. Copeland, class treasurer, was called upon to read his report for last year.

Receipts.	
Balance .....	\$159.35
Field Day Receipts .....	75.00
Class Dues .....	154.00
Class Assessment .....	37.50
<b>Total .....</b>	<b>\$425.85</b>
Expenses.	
Relay Team .....	\$ 46.67
Tug-of-War Team .....	62.00
Football Team .....	151.95
Cross-Country Team .....	12.00
Baseball Team .....	41.43
Class Dinner .....	7.00
Theatre Committee .....	21.55
Ballots .....	2.50
Transparencies .....	1.15
Institute Committee Dues .....	5.00
Electoral Committee .....	13.38
<i>Technique</i> 1910 .....	14.00
Typewriting .....	1.58
Expenses of Treasurer .....	1.35
<b>Total .....</b>	<b>\$381.56</b>
Receipts .....	\$425.85
Expenses .....	381.56
<b>Balance .....</b>	<b>\$44.29</b>

Continuing, Treasurer Copeland said that in as much as class expenses this year were limited, to class dinner expenses and ballots for the elections of class officers and Junior Prom Committee, the annual dues of two dollars would not be needed. He desired the opinion of the class concerning the reduction of dues. The class, voiced by J. L. McAllen, decided to increase the dues to one dollar. Copeland estimated the expenses for the year to be about \$25, but it was considered best to have a reasonable assessment this year, rather than have an extra large one next year.

President Salisbury urged the class to help the freshmen in training for all the Field Day events. He desired all of the 1911 field day representatives to get out and encourage 1913. The class pipe committee was on hand with pipes, and since they needed several more orders, Salisbury told the class that each had better order a few. The meeting adjourned at 1:15.

### PREPARATIONS FOR TECH-HARVARD RACE

#### Harvard Has Many Old Men Back Tech With New Men May Win

Practice began at the Tech Field Monday with 1912 and 1913 relay squads. The freshmen will confine their work to the 220 straight-a-way, while the sophomores will use the gran-stand straight-a-way. A large amount of enthusiasm is being shown by both classes in relay matters, and good material is being put forth by each, although more men are wanted. There are a large number of men back who were on the 1912 relay last year. Some of the 1913 team have also starred in prep. schools, and fast time is expected in both teams.

The semi-finals are only about one week from today, and Field Day itself comes in a little more than three weeks, so that regularity in practice at the Field is absolutely essential for all men who expect to make the relays. Practice in passing the flag will begin soon.

#### LABORATORY FOR WATER ANALYSIS.

The Laboratory for Water Analysis which has been remodeled during the summer, under the immediate oversight of R. W. Gilbert XI '09, was inspected Monday afternoon Oct. 11, by the engineers and others most closely connected with the work done in developing modern methods for the Massachusetts State Board of Health in the years 1887 to 1898. The use of electricity has made possible many improvements in apparatus, all tending to greater accuracy in results and cleanliness in work.

Among the invited guests were Dr. MacLaurin, Mr. X. H. Goodnough, Chief Engineer of the State Board of Health, Mr. Wm. S. Johnson, Sanitary Engineer, formerly with the State Board; Dr. L. P. Kinnicut of the Worcester Polytechnic, Dr. Charles R. Sanger of Harvard, formerly connected with water investigations in the West.

#### EXCHANGES

Swarthmore College resumes football this year after a year's absence from the gridiron. The action is the result of the general clamor by alumni and undergraduates that the ban upon this sport be lifted.

During the second, third and fourth years, especially in the engineering courses, there is a great deal of trivial and tedious, yet very necessary computation. The amount of time saved by the slide rule over the pencil and paper method is enormous, and it is the purpose of the course to make this slide rule computation really practicable for the student.

Forty sophomores were tied up and the class defeated in the annual under-class fight held at Oberlin last week.

President Ernest J. Nichols of Dartmouth has inaugurated a system of student self-government by which representatives from each dormitory from the three higher classes have direct control over all relations with the faculty and the administration.

Dr. James B. Angell retired last week from the presidency of Michigan, after thirty-eight years in that office.

### 1913 PLAYS DEAN ACADEMY TO-DAY

#### Both Teams Ready For Rough Work and Close Score Expected

The freshmen go to Franklin today to play Dean Academy. All the squad are in the best of trim and they expect to keep Dean from scoring. The Freshmen-Dean game is usually the hardest and roughest practice of the season.

The 1913 squad has numbered about twenty-eight men at the Field every night, and Coach Matten is much pleased with the prospect of winning the game, or at least keeping Dean's score low. There have been no injuries so far this year in spite of the fact that the men have had good stiff practices every night. Many of the men have played on prominent high school teams and a few have been interscholastic stars. Arnold Wahl, the manager, half-back and Coach Matten have tried out all the candidates and found several equally good men for many of the positions. In this way he has not only developed a good fast first team, but he has an equally good bunch of substitutes.

Dean Academy has the advantage of having many of the last year's team back and having been practicing much longer than the freshmen. The 1912 team last year held Dean down to six points and 1913 is out to do as much.

The first string will be picked from the following men: Martin, Weeks, Crocker, Gans, Gustin, Freeman, Muther, Franzhorn, Tremere, Elcock, Cahill, Fallon, O'Hearn, Merrill, Perkins, Bernhard, Gibson, Scudder, Sage, Duffy and Wahl.

#### CROSS COUNTRY

#### Practice Over Harvard Course This Afternoon

Frank Kanaly the Tech track coach is working hard with the cross-country squad in preparation for the annual Tech-Harvard race which will take place on Nov. 5, over the Tech course from Highland Station, West Roxbury to the Tech Field in Brookline.

Four of last year's crack team have graduated, H. H. Howland, the record holder for the course; J. F. McCarthy, J. N. Stephenson and R. Ellis. Howland's place, however, is filled to perfection by H. S. Watkins, the young sophomore find of last season. Watkins is doing well and is in the coming race, especially as Herbert Jaques, the Harvard runner who finished first last year will not be able to run on account of trouble with a foot which he cut during the summer.

L. O. Mills who took fourth place and Captain Elmer Jacobs who finished sixth, are both running well this year, and MacCreadie and White, the two junior class distance men should make a good fight for places among the first dozen.

Harvard still has R. E. Dote, M. H. Whitney, H. N. Hardin, H. Z. Martin, N. P. Rogers and E. Parsons of last year's squad are back in the game, however, and will make a hard fight to bring the race this year to their school.

Tech has won the race three times in the last five years and Coach Kanaly is hopeful of making this year's race another Tech victory.

### TIGERS COMPLETELY ROUT PROUD PIRATES

#### Mullin Pitches Masterly Ball and Scores a Shutout

Mullin was a perfect enigma to the Pittsburg batters in the fourth game of the world's series at Detroit yesterday, and as Leifield and Phillippi were both very soft for the Tigers, an easy victory for the home team resulted by the score of 5 to 0.

But eight men reached first off the Tiger veteran, and but two of these got as far as third. Mullin was master of the situation throughout and applied a beautiful coat of whitewash to the Pirates. The fielding of the visitors was in wretched contrast to their previous gilt-edged fielding.

Moriarty and T. Jones did most of the hitting for the winners, while Cobb's timely double in the fourth scored two of Detroit's five runs. Mullin kept his hits well scattered and never did the Pirates make more than one hit in an inning.

The Pirates lost both their chances to score. In the second inning Wagner walked and Abstein reached first on Delehanty's error with one out, but Wilson forced Wagner at third and Gibson was an easy out. Again in the third with one out, Byrne doubled and Leach was passed. The two worked a double steal, but Mullin was master of the situation and fanned Clarke and Wagned in quick succession.

Detroit scored two in the second on hits by Moriarty, T. Jones and Stanage. The other runs were secured in the fourth after two were out, as a result of a base on balls to Mullin, a single by D. Jones and doubles by Bush and Cobb. This ended Leifield's work in the box and "Deacon" Phillippi prevented further scoring by the home team.

The score:  
1 2 3 4 5 6 7 8 9 r l e  
Detroit ..... 0 2 0 3 0 0 0 0 x--5 9 1  
Pittsburg ..... 0 0 0 0 0 0 0 0 x--0 4 5

#### 1912 NOMINATIONS

Nominations for 1912 officers should be in the hands of the sophomore election committee on or before this afternoon at four. Any nominations received later than that hour are void according to the class constitution. There are a large number of men who have not as yet paid their class dues and will be surprised to find that the ballots they cast cannot be counted. In order to be a member of the class of 1912, all dues must be paid in advance. The fellows paid up well last year and it is hoped that no trouble will be experienced now.

The student body of the sophomore class has taken very little interest in the elections this year. Ballots will be left at the Union probably by Friday noon, and the men will obtain them by giving their name. There should be a large number voting this year and it is especially desirable that every man vote early. Polls close Wednesday, Oct. 20, 1909, at four.

#### NEW MILITARY HEAD

The military department at the Institute will be under a new head after Nov. 5, when Captain Alpha T. Easton, retired, of the U. S. infantry, will succeed Major Wheeler. Capt. Easton is a native of Pennsylvania and was in command of the 14th Pennsylvania Infantry until 1899, when he received his commission in the regular army and served in the Spanish war.
