BOSTON, MASS., THURSDAY, OCTOBER 14, 1909

PRICE ONE CENT

1912 NOMINATIONS 12 OFFICES TO FILL

30 Men Nominated for Sophomore Offices—Dues Must Be Paid

Huntington Hall yesterday was the scene of the first meeting of the senior class for the year. President Stewart called the meeting to order to decide the question of the nominations for class officers.

The minutes of the last meeting were read by Secretary Duffield and approved. Treasurer Gould's report showed the total receipts to be \$127.62, and the expenditures \$114.10, leaving \$13.43 on hand. As \$25 is owed to Technique 1910, and money is needed to pay for the class relay team's sweaters—the class is behind financially.

President Stewart discussed the matter of nominations and the necessity of choosing good men for president and secretary, as these positions will require much energetic work after the class leaves the Institute. Nominations must be signed by ten men and should be in by Saturday, Oct. 16, at 10 A. M. The ballots will be out Monday, and are due Wednesday, Oct. 20. Elections will be announced Thursday, Oct. 21.

Since only a small part of the past dues have been paid up, a motion was made and accepted whereby members of the class will be allowed to ballot only upon presenting receipts for their past dues, or upon the paying up of the same.

The dues for the coming season are to be collected by the treasurer. An amendment was passed providing that the list of names of men who have not paid their dues be posted by Saturday, Oct. 16.

All seniors in doubt as to their standing should see the Union Bulletin Board at once.

Payments will be received at the Cage window in the Union living room, on Friday, from 1:30 to 2, and on Saturday from 12:30 to 1.

AVIATION COURSE

Henry A. Morse Studying Flying in Germany and England

Decision upon starting a course in aeronautics at the Institute has been postponed until the return of Henry A. Morss from his trip around the world. Mr. Morss 1893, is one of a committee of three, Hon. Butler Ames 1896, Henry Howard 1889, appointed to report on the advisability of such a course. Mr. Morss left in the summer, but was notified of his appointment while abroad.

He is investigating the courses in aeronautics at the university of Paris and at schools in Germany and England. The possibility of such a course has been received with enthusiasm by the engineering students at the Institute, many of whom have signified their desire to enroll.

CALENDAR.

Thursday.

1:00 P. M.—Meeting in 22 Rogers for all interested in golf.

4:00 P. M.—Musical clubs meet in the Union.

4:15 P. M.—Candidates for Assistant Managership of Technique 1911 meet in Union.

4:30 P. M.—Practice at Field.

Friday.

1:00 P. M.—Meeting of Chess Club in 8 Eng. C.

4:15 P. M.—Tennis preliminary rounds must be played off.

4:30 P. M.—Practice at Field.

NOMINATIONS FOR CLASS OFFICERS CONSIDERED

Senior Class Hold Meeting—Ask for Payment of Dues

Nominations for sophomore class officers were closed yesterday at 4:15 P. M. The polls will open Monday, Oct. 15, at 9 A. M. and close Thursday, Oct. 21, at 4 P. M. All members of the class are expected to pay class dues before 9 A. M. the same day.

The nominations follow:

President—(Vote for one man)—Archibald Eicher, H. E. Kebbon, A. G. Herreschoff. Vice-President—(Vote for one man)—C. H. Albee, H. D. Kemp, H. H. Partridge. Secretary—(Vote for one man)—D. E. Bent, G. M. Keith, H. S. Seelye. Treasurer—(Vote for one man)—E. G. Brown, C. H. Carpenter, J. S. Martin. Executive Committee—(Vote for two men)—J. L. Berry, H. R. L. Fox, S. R. McKellar. Institute Committee—(Vote for two men) D. Benbow, H. W. Hall, E. B. Moore. Athletic Committee—(Vote for five men)—A. T. Bennett, V. V. Bullard, H. S. Benson, F. H. Busby, P. W. Dalrymple, H. Greenleaf, J. J. Murray, M. G. Oettinger, S. E. Reed, E. H. Schell, J. I. Taylor, H. G. Watkins.

PERSONAL HYGIENE

Professor Sedgwick and Dean Burton Address Freshmen

Care of the body as well as the mind was emphasized yesterday by Professor William T. Sedgwick of the Biological Department of Technology at the first of his series of talks on "Personal Hygiene" to the freshmen.

Dean Burton made a few introductory remarks on the interest that the faculty of the Institute takes in the student body, and urged them to keep in good health by taking part in athletics and doing gymnasium work as much as possible.

Dr. Sedgwick paid particular attention to the care of the eyes and ears as these two organs were to be used to a large extent while at the Institute. He declared that a student could not do good work unless in a good state of health and that each student should look himself over and see to it that he kept himself in good condition for the strain that comes to a student at the Institute during his stay here.

MISS JOHNSON FOUND

Miss Elizabeth G. Johnson, the missing librarian of the physics department, was found in the city hospital for the insane on Deer Island, yesterday. Miss Johnson had been in the hospital for a month, under the name of Williams. It is understood that she was committed there by her own physician.

The hospital physicians say that Miss Johnson is mentally unbalanced by overwork and worry. Her condition, although serious, is improving and hopes are held for a complete recovery.

Miss Johnson has been missing since Aug. 12, when she left her lodgings, writing to her aunt that she was going away for a rest.

FRESHMEN WIN 5 to 0 1913 DEFEATS DEAN

Freeman Makes Touchdown in Second Half Intercepts Forward Pass

Yesterday's game between Dean Academy and 1913 resulted in a freshman victory, 5-0. The score was made in the second half when Freeman intercepted a forward pass and ran down the field for a touchdown. The teams were very evenly matched, 1913, however, having a slight advantage on offensive work. The second half when Freeman intercepted a forward pass and ran down the field for a touchdown.

Block, re.....le, May, White Murdock, rt.....lt, Woodward Capin, rg.....lg, Webster Gustin, c.....c, Robbins Gibson, lg.....rg, McKenna Ichon, lt.....rt, Myers, Berry, Shaw Gans, le.....re, Shaw, White Sallon, qb.....qb, Baffett Goth, rh.....lh, Chamberlin, King Freeman, fb.....fb, Houston Whitman, Merrill, lh.....rh, Jordan Wallis, referee; Williams, umpire; Ridell and Wahl, linesmen. Time—20 minute halves. Score—5-0—Freshmen.

SHOW BUZZ WAGON

Final Arrangements Have Been Completed for Field Day

Arrangements have been completed for the big Show Buzz Wagon that is to go out to the Field on Nov. 5. The biggest machine in town has been secured for the whole afternoon, and the indications are that it will be filled to overflowing with about forty old Show members, all determined to paint the Field, town, or anything else that happens to come along, the brightest red possible.

Field Day begins 2:15 P. M., and in order to be there when the opening gong taps that will start the fun, the Show Wagon will start from Rogers at about 1:40. From there it will wend its hilarious way out to the Field, where it will take up its stand for the afternoon. There will be lots of noise aboard in the shape of tin horns, bugles, music, and songs, so if you want to make yourself heard in the joyous tumult, you would better come armed with something that can be heard at least a mile. Also remember the words of the songs from previous Show songs, as the singing will be one of the big features of the day.

Invitations are soon to go out to all who have been connected with the Show except the sophomore class. This is in accordance with a time-honored custom that no underclassman shall ride in any of the Field Day Buzz Wagons, as he is supposed and expected to be with his classmates on this day of their final interclass competition. Upon receipt of his invitation, each man is urged to make application for his seat as soon as he can, as there are only about forty seats, and about eighty people who want to go. On this account the seats will be assigned in order of application.

Y. M. C. A. RECEPTION.

All students of the Institute are cordially invited to a reception held under the auspices of the Boston Y. M. C. A., at the First Methodist Church, Temple street, rear of State House, Tuesday evening, Oct. 14. Refreshments will be served and an orchestra will furnish music. Dr. Borden P. Bowne and Dean Bigelow, of the Boston Law School, will be the speakers of the evening.

SEVENTEEN MEN RUN FINE SHOWING MADE

Pace Set by Coach Kanaly—Fine Weather Helps Men

Yesterday afternoon seventeen men participated in the first run of the cross-country team, over the Harvard-Tech course, for this season. The course was in fine condition and the excellent weather conditions gave the men a good chance to show their speed.

The pace was set by Coach Kanaly. It was a fast pace, but not as fast as a trial would be. Coach Kanaly is to be congratulated upon the form the men showed at this early date.

Four of the most prominent and promising men failed to show up. In order to get a team which will do honor to the Institute, all men must show up at practice. This is most necessary this year as we will probably have the Intercollegiate cross-country run over our course and a fine showing is desired.

An interesting event was the fine finishes of Mills 1910, and E. Ferry 1912, who ran a very spirited sprint to place. All the men finished in good condition, however. Byland 1913, showed up very well. He made a reputation as a runner while in the Derby High School, Derby, Conn.

The men who ran were: H. G. Watkins 1912, Elmer Jacobs 1910 (Capt.), H. S. Benson 1912, L. O. Mills 1910, E. Ferry 1912, Kenneth Cartwright 1912, E. W. De Witt 1911, Byland 1913, H. M. Foley 1912, B. C. Huber 1910, J. I. Taylor 1912, J. Ahlers 1910, G. Frisbee 1910, E. W. Wittengill 1913, L. O. French 1910, O. C. Lombard 1912.

NEW BOOK PUBLISHED

"Concerning the Massachusetts Institute of Technology," the new book published by the undergraduates at the Institute for the information of new men and those intending to come to the Institute will be distributed to the undergraduates this week. These books are free, but owing to a deficit of \$50 due to their free distribution among preparatory schools and undergraduates, any persons who feel able are requested to contribute something to help make this up. These contributions may be made through the Tech office.

COURSE III NOTES

Summer School Abolished On Account of Registration

So many men of Course III obtained professional positions in mines last summer that the summer school in mining engineering was abolished. Prof. Richards considers that this attainment of positions is a very good indication of the ability of Tech men. The instruction received in the mines is so much more valuable in its character than can be given in summer schools that as long as this condition prevails there will probably be no vacation school for Course III men.

In the sophomore team, which has just started a campaign with the local school elevens, Technology has one of the cleanest aggregations of players seen on a school gridiron in years. The men are quiet and their manner is bound to make a good impression wherever they play this season.—Boston Journal.
