A dinner, to which all men of Course 11 were invited, was held last evening at the Union. It was successful in every way, for the attendance was large and the excellent speeches were greeted with enthusiasm. At promptly half-past six the sixty men present and about 150 at the tables prepared for them in the dining room.

At the close of the meal D. Williamson arose and called on the secretary to read the minutes of the last meeting. After they were read and accepted the minutes were handed in. The constitution of the Shingle competition. The old Shingl, he said was rather antiquated, and beyond question it had been lost. A prize of $5.00 is offered this year by Mr. E. J. Shattuck for the best design. The seal must be represented as well as the form and color. Each wording of this form can be gotten by us in completing the connection of the Society. They are two-fold: First, to enable the members to sign the Constitution at once, and to have it signed and approved by all the students shows that the total official count will be made on November 1.

The 100-yard dash will be a close race. S. E. Reed 1912, J. Grant 1912, W. C. Saltus 1911, will be starters in this race and are sure to get after the limit men.

In the 220-yard dash the pick of the class only teams will fight it out for the places. W. C. Saltus 1911, R. E. Reed 1912, L. E. Walker 1912, W. Osunt 1911, all will figure well in the results of this race.

The quarter miles will not be quite so well filled as the other dashes, but some fine competition will be seen in this race.

The half-mile run at present looks as though none good running will be seen. H. W. Watkins 1912, will make the longer run worth seeing. He will be pretty hard by his team mates, E. D. Van Sleven 1912, K. Cartwright 1912, and R. Perry 1912, who will run well in the mile.

The pole vault, which last year was the star event of the meet, will again furnish some fun in the mile. H. G. Watkins 1912, will make the long run worth seeing. He will be pretty hard by his team mates, E. D. Van Sleven 1912, K. Cartwright 1912, and R. Perry 1912. All the students shows that the total official count will be made on November 1.
