The Tech takes pleasure in announcing the following appointments to the Board of Editors:—

John Ahlers 1910, Society Editor.
David St. Pierre Gailliard 1911, Institute Editor.
Gerald Marcy Keith 1912, Exchange Editor.
Joseph Ignatius Murray 1912, Athletic Editor.

To the News Staff:—Leroy George Fitzherbert 1911, David James McGrath 1912, and Arthur Kenney 1913.

Season tickets which have been issued by the athletic committee have not been selling as they should. This lack of sale may be due to the little enterprise of the men who have charge of them, but as these men may be seen at their work every day, the fault hardly falls on them, but rather on the student body, upon whom the support of athletics is incumbent. These tickets are three dollars apiece and though this sum may appear large for a single ticket, on first glance, a little thought will convince anyone that the ticket is well worth the price, as it admits to all games and sports given at the Institute, and if the price of tickets for different meets and events were counted up, it would in the end amount to much more than the price of the season tickets.

There is a reason why every man in Technology should buy a ticket and these are, first for the seniors: You are going to leave the Institute in a few more months and during the months which you are here you should support the athletics as much as you possibly can, as this will be your last chance to help your alma mater on the field of sports. Juniors and sophomores should all obtain a ticket, not only to see the various events to which the tickets give admission, but because many of the men from these two classes are the participants in these events, and the tickets can be used as entry fees for every meet without extra charge. Freshmen should get the tickets because this is their first chance to help Technology obtain prestige in athletics.

Before this year, the students have been assailed from all sides to subscribe to various subscriptions for ath-

letics and it was hoped that this condition of affairs would be adjusted by the sale of the season tickets, but unless they are bought, the old way will have to be returned to and this is not to be desired.

Every man who has any interest at all in Technology should give this editorial his attention and obtain a ticket as soon as possible.

COURSE II DINNER

(Continued from page 1.)

men who are successfully bluff the world, and among these there are absolutely no engineers. An engineer, to be successful, must know what he is talking about. He must be confident and quiet.

Prof. Hayward said he was very glad to hear of the proposed affiliation before mentioned. He urged the men to make the most of this opportunity and to make good. He said he was greatly interested in all the work of the society, and that if he could be of any assistance at any time, he would gladly come forward.

At the close of Prof. Hayward's speech Mr. Williamson announced that Prof. Miller was unfortunately too unwell to be present at the meeting. There being no more business to attend to, the meeting adjourned.

COMMUNICATION

The Tech,
Boston, Mass.
Gentlemen:—

There are a lot of men who can run cross-country who have not shown up. They ought to get busy. There should be at least fifty freshmen out for the team this year. Tech can win that race if the fellows will work. There is no better coach in the east than Kanaly, and even Michigan wasn't in it last year. The chances of having the race in Boston ought to be a stimulus to cross-country running at the Institute, that would make even Cornell look sick.

There is no better fun at the Institute than the weekly hare and hound runs. There is the possibility of putting Technology's name at the head of cross-country running as in other lines, if the fellows will each get out and at least make a try.

If a man doesn't make the team the first try, he will at least make someone else do better to beat him, and he stands all the better show next year. There are possible champions at Tech who don't know it, and they will never know it till they get out and try, and give Mr. Kanaly a chance to tell them how good they are.

As ever,
STEVE.
Alias, J. N. Stephenson '09.

EXCHANGES

Two teams of Yale undergraduates, calling themselves the "Tigers" and the "Pirates" are playing a fall championship baseball series at New Haven. In the first game, the "Tigers" were victorious, 9 to 1.

Registration at the College of Engineering of Illinois University has increased 8 per cent. in the last year, from 1179 to 1275.

Owing to a lack of interest shown by the undergraduates in previous years, the Princeton 1910 Dance Committee has decided to abolish the Senior Ball this year.

The glove store that carries a good line of
FOWNES GLOVES
is to be depended on.

Concerning 50 cent Neckwear

Our display of 50c neckwear is as large as most stores devote to their entire neckwear stock.

On account of the immense volume of our business our showing is changing every day. Therefore we offer you an assortment to select from that is always fresh and new and that comprises all the good things made at this price.

Our full assortment of Neckwear includes every good shape, material and coloring in grades ranging from 25c to \$6.75 each.
