On the Monday after Field Day the compulsory work at the Gym, which is part of the Freshman course, will begin. There will be classes every day except Saturday. The work will be from three to four every day except Wednesday. On this day the class will be in half past three to half past four. Each man will have two exercises a week.

Each hour will be divided into three parts. During the first part, the work will be put through the "free work," or unstructured. After this there will be exercises with the weights, F. C. balls, or Indian clubs. The most interesting part of the apparatus work, comes last. Coach Kaszal and Mr. McNamara will help take charge. Each instructor will separate his class and put it through the apparatus work. Both instructors will be on the floor at the same time. Under these plans the men will be able to get a large amount of individual instruction.

Coach Kaszal will try to make the gym work for the individual as possible. He hopes that the men will take up the work earnestly from the very beginning.

CHEMICAL MEETING

Prof. Talbot To Address Engineers Tonight at Union

Tonight the Chemical Engineers will hold a meeting in the Union. That procession to be most interesting and instructive, and a large attendance is requested. New members are especially invited.

Prof. Talbot, of the Chemistry department, will address the society. The subject will be "The Chemistry of Commerce." Prof. Talbot's reputation as an interesting speaker is well known and it is hoped that the members will avail themselves of this opportunity to hear him speak on a practical topic.

UNION NIGHT FRIDAY

Mr. F. P. Fish To Be Speaker At Second Entertainment

Next Friday the second of the Union Nights, will be held at the Union. Mr. F. P. Fish of the New England Telephone & Telegraph Co., a man well versed in his business, will speak, and his talk should be most interesting. Refreshments will be served afterwards for the nominally fee of ten cents. It is hoped that a large crowd will come and greet the speaker.

An aeroplane club has been formed at the University of Pennsylvania.

In a small football game, the Columbia Engineers defeated the Sophomores by the score of 13-0.

The 1912 Thirteen Committee, recently held a meeting in the office of the past week completing plans for the annual Tech night which is held the evening of Field Day.

This year Field Day comes on Friday, Nov. 5 and the Theatre Committee have made great plans for a glorious 1912-1913 Tech night at one of the prominent theatres.

The class of 1912 will live up to its past reputation and this will be one of the biggest and brightest Tech nights pulled off since history began. Details too nearly complete, and full information, and the name of the theatre and show will be announced in Wednesday's issue. Be prepared for it. There will be some surprises.

CATHOLIC CLUB NEWS

Prospects For This Year Most Bright--Plans For Year

This year promises to be a most successful one for the officers of the society are most energetic, and are doing all in their power to promote the welfare of their club.

As President announced at the meeting last week, the talks this year will be on live subjects. The speakers will be among the prominent and influential men of the city. A talk on Spiritualism, taking up the matter from its sources. The church's standpoint is to be given in the near future and is sure to be most interesting. The meetings will be open and everyone is invited.

Plans for the annual dance will be made in the near future. This dance was the only one of this character held the social times of the year. This year it should prove an even greater success.

It is currently desired that the members will attend the meetings regularly. These meetings will held every other week on Tuesday nights at 8:15 in the Union. Watch the bulletin board for the announcement of the speaker for the next meeting.

TECH TO HELP Y. M. C. A.

When one of the professors was asked for a subscription to the new building fund of the Boston Young Men's Christian Association he told the young man that he would approach him and have a conference with him. He preferred to give his subscription to a Tech student, as a Tech man was asked and started on a campaign of his own amongst the students and professors. The work was begun twenty days ago and at noon Monday $1,000 had been subscribed by students.

Reports from the various teams are read every noon at the luncheon in the H. H. Stanton room, and it is hoped that the figures will be on the representatives file. Mr. T. gives his accounts for each day, that he may be proud of the fact that he backed his institute Y. M. C. A. is the small subscriptions that will count from now on.

To do what you can and watch the clock on the Union Bulletin Board. Subscription cards may be found at the Cage.

1912 HOLDS STIFF PRACTICE AT OVAL

Capt. Eicher Back In Game

Team Shows Much Improvement

The Sophomores held a good stiff practice yesterday afternoon at the oval. Capt. Eicher was in his old position at quarter and the team seemed to show up much better with him directing the plays than it did with other men in that place.

At Lowell Saturday, the specific cause of the loss of the game, was the failure to get the ball from the center to the backs. This was because a set of second string men had not been developed and so, when the regular center, Baldwin, and Eicher, the quarter-back were unable to play, there were no men who could fill their places.

The coach put the men hard to work and there is no lack of work. There is a general feeling among the number of the team that the game with Newton High School on Wednesday, will show that there has been considerable improvement since Saturday. The team came out of the Lowell game with only a few slight injuries. When Robertson is back at tackle and Sonnen as center, with Eicher directing the playing, the team is sure to be more smoothly and in style. The chances for 1912 to win the football game Field Day will look brighter.
