CURRENT EVENTS

Promising yacht designers on this side of the Atlantic are joining with Sir Thomas Lipton in his suggestion that a fairer and better race for the America's cup could be sailed with larger and more seaworthy boats, than with the lighter "racing machines" which have been developed under the old rules.

Ex-President Theodore Roosevelt and his hunting party are today leaving Londioni, British East Africa, for Eldama ravine.

The threatened dual between the Secretary of State at Havana, Justo Garcia Velez, and the Secretary of Sanitation, Dr. Mathias Duque, will probably not take place, the court of honor to which the affair was referred having decided that there is no necessity for an encounter. The trouble arose out of an alteration between the two ministers over what Secretary Duque believed to be the impertinent interference of Secretary Velez in his department.

Jean Comandon announced before the Academy of Sciences yesterday the discovery of a new method of photographing bacilli by the combined use of an ultramicroscope and a cinematograph. The discovery is considered of first importance, opening, as it does, a new field for the study of microbe action.
