RIFLE CLUB MEMBERS TO SHOOT FOR MEDAL

Competition For N. R. A. Prize

Last Target Practice

Tomorrow afternoon the members of the rifle club will compete for the National Rifle Association medal and several other medals. The club will be using the 1500 P. M. train from the North Station. General target practice for the members of the club who elect to go will also be held, and this will provide an ideal method of keeping in good condition on the regular Saturday afternoon practice.

A medal is offered for the highest individual score in open competition every Saturday afternoon. Two practice targets will be shot, followed by five shots. Each target will be worth 500 yards. A bullet count to five points, so the total possible score is seventy-five. The highest possible score is eighty. The top ten per cent of the shots are sighting shots, ranges, etc., are also included in the total score. The highest total score of shots, sighting shots, ranges, etc., is fifty out of a possible seventy-five in one shot, and the highest possible score is eighty. The highest possible score is eighty.

TECH AND HARVARD MAKE NEW CONTRACT

Five Annual Cross-Country Meets Over Tech Course To Be Held

A cross-country contract of five years duration has been agreed upon by Technology and Harvard, according to an announcement by the Tech authorities last night. By the terms of the agreement the two institutions are to hold five annual cross-country meets in the Bar Harbor region during the months of April and May, with the regular Friday and Saturday afternoon practice.

The new contract covers a number of the other arrangements which were made during the last five years. Of the last two years, Tech has won three and prospects point to a signal victory for the Cardinal and grey this year. The course will be established at Highland station to Tech Field, Brookline, on the Fall Field Day of Tech, coming this year on Nov. 5.

The new contract covers a somewhat longer series of arrangements which were made during the last five years. Of the last two years, Tech has won three and prospects point to a signal victory for the Cardinal and grey this year. The course will be established at Highland station to Tech Field, Brookline, on the Fall Field Day of Tech, coming this year on Nov. 5.

Additional Service

Every Effort Is Being Used To Bring Perfect Satisfaction

Beginning today a new combination lunch will be added to the others at the very reasonable price of twenty cents. There will be a choice of entrees, vegetables, and choice of desert or coffee. Considering the good food that they serve in the Union now, this special lunch is most reasonable.

Since the publication is The Tech a few days ago of the announcement concerning the possible closing of the dining room on account of lack of patronage, there has been some improvement in the attendance at the Monday night entertainment. There is, yet, by no means sufficient patronage to put the dining room on a paying basis. The arrangements made provide for the men using the appetizers three times during the course; at the start, crossing the field at the end of the first lap, and at the finish, thereby obtaining the usual objection of a distance run from the observers point of view.

1913 VS. RINDGE

1913 football team played Rindge at Tech Field yesterday afternoon. It was the first game of a projected series, but the Tech team made one touchdown. The freshmen were strong on the gridiron, but could not gain much ground when in possession of the ball.

This afternoon the Field in Rindge will be the arena of the most hotly contested relay trials which have ever taken place. The exciting events of the day are the races, a northern mile, the half-mile relay, the mile relay, the ten-mile relay, and the one-mile relay. Miss Janis in "The Red Mill" two years ago.

Miss Janis is this year again cast as a sprightly school girl, but in this instance she is the lone victim of a new co-educational experiment at a "fresh water college" in the middle West. Thus particular interest is lent to the piece from a Technology standpoint.

Many surprises are being planned by the committee and already the star and her chorus are practising songs, dances, etc., that will have particular interest for Tech men. Many of the songs are selected for special purposes, and will be complimentary to the piece from a Technology standpoint.

The committee reports a heavy attendance of sentries already, and all Tech men who plan to go should get their tickets at once from E. R. Moore, O. B. Bent, or R. D. Kemp. The sale of tickets may be found in yesterday's issue of The Tech.

FIELD DAY SPIRIT NOW ON THE INCREASE

Freshmen Relay Showing Up In Fine Shape--1912 Must Practice Pass

As Field Day approaches, the classes of 1912 and 1913 are showing more enthusiasm in their work, but the freshmen are still in need of more men in all events.

The freshmen football team is putting in some consistent work at the field. Under the direction of Coach Murters the team is kept right up to form and will make the crack sophomore team huskies.

The freshmen relay team is showing up in great style. The juniors are putting in faithful work to get the flag passing down to a science. Every afternoon, W. Salisbury 1911 is out working with the well and fast team and will surely result from his strenuous efforts, come the big day.

The sophomore team is in fairly good shape, but the showing made by them against English High School shows that more work is needed on passing the ball.

In lack of the gun on Garrison street and center of the members of the two tug-of-war teams are meeting their strength against that of a huge pile driven deep into the earth, in their endeavor to produce the best tug-of-war team the Institution has had.

Up to within a few days the men have not been showing up in numbers large enough to pick out a very good team from either class, but they are now improving and everything stands now to produce the best Field Day we have ever had.

MACLAURIN SPEAKS

President Richard C. MacLaurin speaks at the "College Night" this evening, and his topic will hold at the Boston City Club on Bennet Street. The MacLaurin speech was "The Relation of the City to its Different Institutions." He was warmly applauded and receiving contained many favorable remarks com-

MR. FISH TO SPEAK

Entertainment Will Start At 8 O'clock Sharp

The second of the series of Friday night entertainments will take place at the Union tonight, when Frederick P. Fish will give a short address. Mr. Fish is president of the American Tele-
