

### MATHEMATICAL DEPT.

There have been no great changes in the mathematical department this year beyond the fact that the third year students are continuing their course in Wood & Bailey's math book, volume II, instead of using Murray's book on Differential Equations. Dr. Moore is giving the course in Advance Calculus instead of Prof. Woods who is now in Europe. Prof. Wilson will give his usual advance course of two hours every week to graduated and fourth year students. The exact nature of the math has not been decided yet, this depending mostly on the students in the course.

### CURRENT EVENTS

To show their appreciation of the hospitality and kindness shown to them on their visit to Yokohama last October, the officers and men of the United States Atlantic fleet of sixteen battle-ships have subscribed to buy a loving cup to be presented to the Japanese navy through the State department.

At Princeton this year 35 men reported as candidates for the daily paper during the first three days of school.

### OLD ESTABLISHED DINING ROOM

A. G. COTTON, Propr.  
33 St. Botolph St.  
Best Board in Back Bay.  
Reasonable Rates.  
We make a specialty of serving Tech Students.

### WIRELESS AERIAL

During the past few weeks the members of the Wireless Station Committee have been busily at work completing plans for the large aerial that is to be erected on the Union. Edward M. Guilford of Winchester, vice-president of the Wireless Society, and chairman of the committee, has given the design of the mast and aerial arrangement careful consideration and he is of the opinion that the actual work of the erection will commence this week. The type of antenna that the committee is to put up will be very efficient. It will span from the mast of the Union across to the Pierce building. This will give a long stretch with beneficial results.

The wireless apparatus is to be located in one half of the room of the editorial office of The Tech. It is a large room and will afford every opportunity to carry out the plans for a powerful station.
