The "Dopester"

I see that the cross-country management has started advertising the cross-country intercollegiate, by billboard posters on the different elevated streets.

All the Yale regulars are on the sick list, as usual, but they will recover speedily from their almost fatal injuries.

The Boston Journal's school boy cross-country, which is to be held Nov. 20 from 3 to 6 o'clock, looks as if it should be interesting. Some of the best runners of the different high Schools are getting into shape.

Did you get your tickets for the game Saturday?

AM. SCIENCE ASSOC.

From Dec. 27 to Jan. 1 inclusive Boston will be the scene of the annual convention of the American Association for the Advancement of Science, and some thirty scientific societies will be connected with it. Among these may be mentioned the American Mathematical Society, the American Physical Society, the American Chemical Society, the Geological Society of America and the American Society of Naturalists. The various institutions of science which will be the main headquarters and meeting places for societies in mathematics, physics, chemistry, engineering, economics, anthropology and education.

At the opening session, which will be held in Huntington Hall, Dec. 27, addresses of welcome will be given by President Lowell of Harvard College and President Marsh of the Institute. Prof. Tyler is chairman and Mr. G. W. Smith of the Mechanical Engineering department is secretary of the arrangements committee of five who are in charge of the plans for that part of the affair connected with the Institute.

Another group of societies, including the sciences of biology, medicine, etc., are to have their headquarters at the Harvard Medical School. The last meeting at Boston of the American Association was in 1888.

SOUTHERN CLUB MEETS

Reception to New Men—Dean rot.Dewey Speak

Yesterday was notably principally for the number of meetings of different clubs, societies and organizations connected with the Institute. By no means the last important of these was the meeting of the Southern Club of the Massachusetts Institute of Technology.

The Southern Club met last night in the rooms of the Technology Club on Newbury St., at eight o'clock. The meeting was well attended, about forty men being present.

The object of the meeting was to get the new Southern men up to the club and a reception was given to them.

Dean Burton spoke in his usual entertaining manner on an original subject and an address was given by Prof. Dewey.

The members of the club have great confidence in the outcome of their efforts and they are entirely satisfied with the result of the meeting.
