AERONAUTICAL DAY
AT 1915 EXPOSITION
A. A. Merrill To Lecture--C. H. Curtis Invited--New Models Received

Friday Nov. 19, will be aeronautical day as the Boston 1915 Exposition. Mr. A. A. Merrill of Brezins, the Y. M. C. A. lecturer on aeronautics will deliver his most interesting lecture as usual. P. M. on that day. Invitations have been extended to the members of the New York Aeronautical Club, and the Associated Loft in America, and Mr. Glenn H. Curtis has been invited to be present. It is hoped that the largest gathering of men interested in aeronautics that has ever been held in New England will be present to inspect this.

There has recently been received at the fair from Germany, a large collection of airship models showing it from 1852 to date. Curtis' original biplane that won the aviation contest at Rheims is also on exhibition. The lecture will take place in lecture hall, No. 1, on the ground floor, at 9 P. M. A register will be placed in the room where the Curtis bi-plane is, in which the members of the clubs are requested to sign their names, to be given to the press.

The management would be glad to receive from any of the members, photographs for exhibition purposes, or models.

A coupon will be run in the advertising section which if presented at the door of the lecture room will insure admission, as many invitations have been given out.

EXPLANATION OF MAP AND PROFILE

Two Laps Of Unequal Length Shown In One Line

The profile of the Technology six-mile course shown in the cut, represents it as one continuous line. Since some portions of the course, are passed over twice, and the portions shown in the field three times, portions of the profile are necessarily repeated an equal number of times.

The course starts from the field, returns after a mile and a half lap, and finishes there again after a second lap of four and a half miles.

INTERCOLLEGIATE CROSS-COUNTRY
RUN OVER TECH COURSE TOMORROW
Seventy Men To Compete--Tech Has Chance For Second Place

Ten of the leading college cross-country teams will meet tomorrow in the greatest intercollegiate cross-country meet of the year.

The race is to be over the new six-mile Technology course and it is expected that one of the fastest races will be run this year that will be held over the course for some years. A record for the course will probably be established this year which will stand for some time.

The run is scheduled to start at 10:20 A. M. and should finish not later than 11:30, so that all visitors in town for the Yale game will have an opportunity to see it before the gridiron battle.

First place in the race is practically conceded to the Cornell contingent, and the real fight will be between Technology, Syracuse, Yale and Pennsylvania for second place. Harvard, Princeton and the other entries have not shown up very well this year, and it

FRANK M. KANALY, Technology Cross-country.

Major Frank H. Briggs 1881, will be undergraduate manager of the meet, and Paul H. Pearson, 1911, manager of the track team will be undergraduate manager.

The course itself is six miles long and is said to be better than the old Princeton course which was never very popular. The start and finish of the race is at Tech Field. The course leads from the gate on the left hand side and goes down Jamaica road where it turns just above the little hill near the parkway and crosses the fields. A short lap is run, and the men at the end of this, cross the field and start on the longest lap which is to a great extent over the old course.

The race is to be over the new six-mile Technology course and it is expected that one of the fastest races will be run this year that will be held over the course for some years. A record for the course will probably be established this year which will stand for some time.

The run is scheduled to start at 10:20 A. M. and should finish not later than 11:30, so that all visitors in town for the Yale game will have an opportunity to see it before the gridiron battle.

First place in the race is practically conceded to the Cornell contingent, and the real fight will be between Technology, Syracuse, Yale and Pennsylvania for second place. Harvard, Princeton and the other entries have not shown up very well this year, and it

MAJOR FRANK BRIGGS,
Graduate Manager I. C. Cross-country.

is not expected that they will finish to the bare to the contest.

The Cornell team is practically the same as last year's team, although Taylor who finished fourth last year is not on the team because of a lameness. Capt. Young of the Cornell team finished first last year, and is expected to finish well up in the front division, if not actually in first place.

Brown and Ruperti who finished seventh and eleventh respectively last year, are also looked to for a repetition of their performance, and with the rest of the team in good condition they

MR. LOUIS BRANDEIS AT UNION TONIGHT

Will Address Students On Subject of Workingmen's Life Insurance

Union Night this evening should prove to be very interesting to the students of the Institute. Mr. Louis Brandeis, member of the law firm of Brandeis, Dunbar & Norton, will be the speaker, giving an address on "Workingman's Life Insurance." This subject is one which should be especially interesting to technical men. Mr. Brandeis addressed the students at the Union last year, and was considered by those who heard him, one of the most interesting speakers of the year. He is connected, with the 1914 movement, and his remarks will contain much interesting data.

TECHNIQUE 1911

Practically the entire effort of TC this year will center in this, cross the field and start on the longest lap which is to a great extent over the old course.
