PRICE ONE CENT

CLASS HISTORIES FOR TECHNIQUE 1911

Special Scheme To Encourage Competition On Part Of Lower Class Men

Technique 1911 will try another innovation in the scheme for getting class histories from the student body.

In order that no man may go to the labor of writing a complete class history only to have it turned down for a better one, the following scheme will be tried.

Each prospective author should see the class history editor, W. J. Seligman, before December 15th and report the idea that he has in mind. Seligman can be communicated with through the Cage and will endeavor to furnish ideas for those who wish to write but are at a loss for a scheme.

The men will then be given until after the Christmas vacation to work out such a portion of their history as will enable the board of directors of Technique to determine which man's work they wish to use.

When one history from each class has been decided upon the preliminary pages will be returned to the historian selected and he will be given a definite amount of time to get the work completed.

Any man who passes in preliminary pages will be credited with his effort to aid Technique and his name will be reported favorably to the Electoral Committees, provided he is a member of the lower classes.

The four men who have their histories selected will receive a prize of \$5 or three books, and will receive recognition in Technique.

It would be well for members of the lower classes who have positions on future Technique boards in view, to realize at once that any effort for the present volume will mean a stepping stone toward the desired election. Lower class men will receive credit for any work done in the art, cartoon, grind, business or history departments and money prizes are also offered for the best work along these lines.

Any further desired information can be obtained from D. R. Stevens, care of Cage.

OPEN DURING HOLIDAYS

Union Dining Room Open For Use Of Delegates To Conference

Chairman of the dining-room committee, M. R. Scharff announces that the Union dining room will be open the entire Christmas vacation. The American Association for Advancement of Science, which meets in Boston from December 27th to January 1st, will have its main headquarters in the various buildings.

President Maclaurin of the Institute and President Lowell of Harvard College will give addresses of welcome in Huntington Hall, Monday morning December 27th.

Many of the members of the Faculty are connected with the Association and several are among the most prominent members.

Since the Association will have most of its meetings here and therefore they will be at the Institute much of the time, the opening of the Union dining-room will be an additional facility which the Institute is only to glad to put at their service.

WINTER CONCERT OF MUSICAL CLUBS DEC. 17

Success Of Last Entertainment Points To Biggest Crowd Of The Season

The concert on December 17th promises to be the best winter concert ever given. The clubs are much better than usual, as shown by the selections given at the Wesleyan concert last week. This is owing to the fact that more interest and enthusiasm seems to have been taken by the student body, both those in the club and also those who go to the concerts.

Copley Hall which is a much larger hall than any other near, will be the scene of this concert. The concert will be followed by a reception and then comes dancing until two o'clock. Dance orders and tickets will be ready very soon. Blocks of seats may be reserved till December 14th. No seats can be taken unless paid for. Seats will be on sale Friday, December 10th.

December 2—Mandolin Club at Hotel Vendome.

December 3—Entire Club at Milton Town Hall.

December 10—Entire Club at Wesleyan Town Hall.

December 13—Entire Club at Norumbega Town Hall.

December 17—Winter Concert, Aumbdale.

January 8—Mandolin and Glee Club, East Boston.

J. H. NEAL WILL SPEAK

Subject Of Friday Entertainment "Boston Elevated System"

J. H. Neal, general auditor of the Boston Elevated will speak at the entertainment on Friday, December 3d.

"Comparison of the Boston Elevated system with foreign systems" will be the theme of the evening. The talk will probably be illustrated by slides from President Bancroft's extensive collection of views, gathered while on his trips abroad.

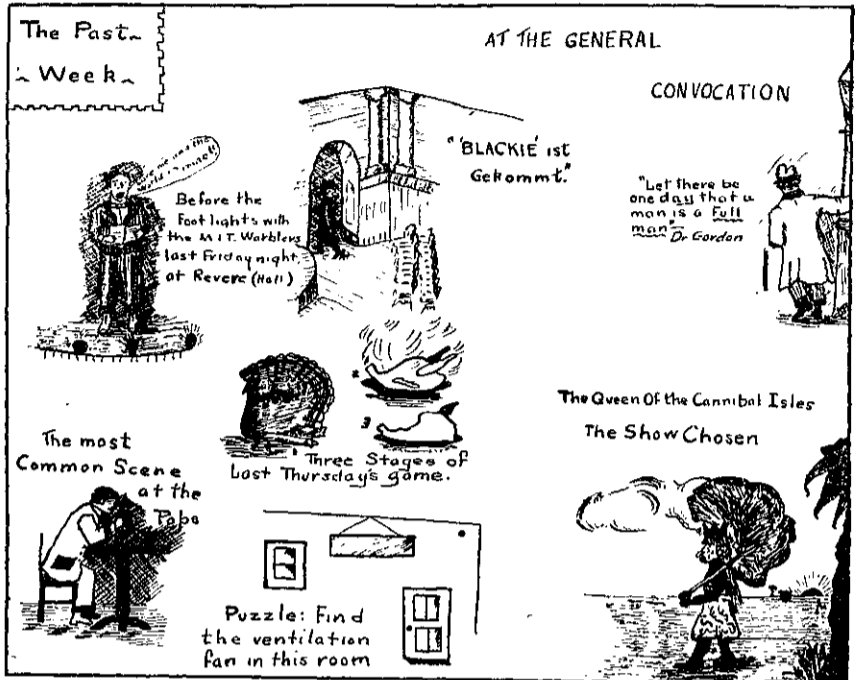

EXCURSION TODAY

The Quincy Market Storage plant will be visited by the Mechanical Engineering Society this afternoon. Those members who wish to go will meet in 24 Eng. B. at two o'clock.

This plant is the largest in New England, and supplies most of the markets in the vicinity of Boston. It has not been visited by the society for a number of years. It presents the problems of refrigeration on a much larger scale than any other work in this locality, and also emphasizes the tremendous amount of food which is used in a large city.

The excursions of the society are taken every year to places of interest about Boston, and these are usually about six in all. In previous years the Watertown Arsenal, Charlestown Navy Yard, Fore River works and numerous power plants have been among the points visited. This is the first excursion of the year and will probably be well attended as Wednesday afternoon is free for many.

The daytime color rush which has displaced the time-honored night rush at Michigan is pronounced a "Mollycoddle" affair by a prominent member of the faculty.

REV. H. W. STEBBINS TO SPEAK AT T. C. A. DINNER

First Of A Series Of Meetings To Be Held This Winter Is Tonight

The Technology Christian Association will hold its first big dinner to-night at six o'clock. The tables will be set in the small rooms adjoining the main Union reading room and will be so arranged that a good number of men can be served.

Now this dinner is to impress on the men that the T. C. A. is a good strong proposition. It has come to stay and it looks forward to doing work which will equal, or be better than the same sort of work done by other colleges throughout the country. It wants good earnest fellows to help; so this dinner has been arranged to start the ball rolling and to lead the way towards a series of dinners which will be held during December.

At these dinners prominent men have agreed to speak on all sorts of live subjects. For to-night the T. C. A. has been particularly lucky to secure the Chaplain of the Charlestown jail. He is a sincere worker and an interesting speaker. His talk will be on the conditions in which he works and also some of the situations to be met with and combated in various prisons throughout the country.

To add a little to the spirit of the evening some of the members of the musical clubs have agreed to render music during the evening.

At the close of the dinner informal discussions will be held. The general topics may be covered by the head, "The Relation of the Bible to Present Day Questions."

Get your tickets at the Cage at once for a big crowd is expected. The price per plate is only 20 cents.

—That West Point will probably play football next season is evidenced by their requesting the Tuft's management to reserve a date for the Army on their 1910 schedule. It is understood, however, that West Point officials will insist upon an alteration in the present rules and that they will again lead the fight for revision as they did so successfully in 1905. The association which was then formed and which is now headed by Captain Palmer E. Price will meet in New York on December 31.

COMPETITION OPENS FOR TECH SHOW POSTER

Full Instructions And Suggestions Will Be Given At Meeting Tomorrow

Competition for the poster of this year's Tech Show, "The Queen of the Cannibal Isles," is to start to-morrow, when a meeting of all who expect to draw will be held in the Show office, Room "B" Union at 4 P. M. A prize of \$10 will be awarded for the best drawing submitted.

The poster is to contain the words "Tech Show" and the title of the play, and will be in two colors and black, probably printed on white. Any drawing not made according to direction will have to be rejected. The poster should deal with the title of the play so it is not necessary to know anything about the book.

This is the twelfth annual Show and of the posters for the eleven shows already held, four were drawn by students and the other seven by professionals. As everything else about the Show is done by students it would be entirely out of the way if the management were forced to call on professional talent especially when there is such an over-abundance of it here in the Institute, as evidenced by Technique and architectural work. It is the duty of every person who has any, or thinks he has any talent in this line to come out and try for that ten spot. Everybody should at least attend the meeting in the Show office to-morrow and hear what Publicity Manager H. C. Davis, Jr. has to say on the subject. At this meeting full instructions and suggestions will be given. If anyone is unable to attend the meeting to-morrow he should see or leave a note at the "cage" for H. C. Davis Jr., Publicity Manager.

CALENDAR.

Wednesday, December 1.
2:00—Mech. Eng. Society meets, 24 Eng. B.
4:00—Poster Competition meeting, Room B. Union.
4:00—Basket-ball practice at Gym.
6:00—T. C. A. Dinner, Union.
8:15—Catholic Club Dinner, Union.
Thursday, December 2.
4:00—1911 Prom Nominations Close.
Friday, December 3.
6:15—1910 Class Dinner, Union.
8:00—Union Entertainment.
