NEW SKATING ARENA
ON MASSACHUSETTS AVE.

Skating And Hockey Facilities
To Be Available This Winter

Boston will be an important hockey centre this winter, with six of the
teriastic Hockey Association's champion-
ship games scheduled in this city. They will be played at the new Boston
Arena, now under construction near the
corner of Massachusetts Avenue and St.
Botolph Street. Great progress has been
made in the construction of the structure, the concrete foundations for
which are all in place. The first shipment of brick and steel arrived this week and
the building will be rushed up at all possible speed. It is expected to be
ready for the skaters and hockey players the second week in January.

The Arena covers an area of 6,000 square
feet, the main building being 110 feet by 200 long. The head house will
be 50 by 60 feet, and the unfinished on surface will be
12 feet. The total cost of the building, one of
the largest artificial ice surfaces in the
world, will be $250,000 for provision for increas-
ing its area to 1,500,000 square feet. There will be sixteen rooms for
operatives and visitors, the ten.

A feature of the new Arena will be the
Regent Hotel which is to be located
in the Arena, quite separate from the main hall for the use of the oper- 
atives who will remain there during the
season. A banquet hall is being built
in the Regent Hotel for the use of the oper- 
atives. The Arena will be heated by
steam and the temperature will be kept
at about 60 degrees F.

MILITARY DRILL NOTES

There seems to be no doubt that the
freshmen are taking up the military drill
work with better spirit than has been
the case in the past. Capt. Easton says that he has noticed a decided
improvement since the beginning of the
year and the battalion officers con- 
cur in this opinion.

The work of the companies seems to be
about as good as ever and there are no
complaints about the instruction given in the
machine drills but Capt. Easton has
decided to wait until the beginning of the
new year, the idea being that they will
continue there until the new class is
formed.

The Cadets must be at the Cage
before 4 o'clock today, in care of the
Nominations Committee, to have their
name on the list of speakers for the dinner,
which will be held at 11:15 on Wednesday.

The committee has not yet given out
the final list of speakers for the dinner,
but it is expected that the list will be
made known before the dinner is held.

The committee has also invited Dr.
Talbot to speak since the first year but
he has declined the invitation. Those who
have had the good fortune to hear one
of Dr. Talbot's addresses before the
Chemical Society or elsewhere will join
in the hope that he will feel well enough
to come.

The dinner is to begin at 11:15 and end
at 3 o'clock. The gentlemen will be
seated at the tables and the ladies will
be seated at the cages. The program for the
night will consist of the following:

1. The introduction of the messengers from the
prison, with the announcement that they are
to try and get some of the facilities
that the United States was the best country for
the prisoners and that the next few weeks was
the hope of the prisoners.
