DAILY

VOL. XXIX. NO. 59.
BOSTON, MASS., TUESDAY, DECEMBER 7, 1909
PRICE ONE CENT

105th ANNIVERSARY OF THE BIRTH OF WILLIAM BARTON ROGERS
Founder And First President—He Gave His Life To Build The Institute

TO HOLD SECOND DINNER WEDNESDAY
Mr. A. R. Williams To Tell Of His Experiences In Talk To T. C. A.

Over in East Boston stands the Mary
wick Church, midst among the most elite of churches. Time, however, and the
coming in of manufacturers, moved its
members to other sections of Boston;
attendance fell off, and up to a year ago
the parish was slowly going to decay.
But in the latter part of November 1898,
two men were called to give the ser-
vant, T. W. Patterson and A. R. Williams.
The former had obtained part of his training in London, England, at the
same time been a reporter for the New
York Herald, but left to give the service.
Today things at East Boston are change-
ing rapidly. The recent attendance of sixty-five, the service drew over six
hundred, and nothing can break the
enthusiasm of the place.

Last summer the two ministers, to learn more of what the men of East
Boston needed, put on working clothes
and went looking for a field. Mr. Wil-
liams' description of this experience is interesting, and the institution
has succeeded in getting its reagent to
give it at the second dinner next Wed-
nesday night at six o'clock. Mr. Wil-
liams, like the speaker of last week,
is seeing things every day which most
of us know nothing about, and he is a
to a man who can talk straight.

Subject for the group to follow the
speaker on "Social Service." Men re-
main for these discussions will take up
with leaders the questions, "What is
your conception of the Kingdom of
God?" "How did Jesus contribute to
social welfare of his time?" "What
relation does social salvation bear to
individual regeneration?" "How can
one best be of service?"

For December the usual Sunday meet-
ing was suspended today. Mr. Rogers
will tell of his experiences in talk to
the usual Sunday meeting.

WIRELESS SOCIETY

Four members of the Wireless Society
were at work yesterday afternoon on
the receiving antenna at the station in
the Union.

K. H. Gifford, of the Station Commit-
tee, is of the opinion that the receiving
equipment will be ready in a day or
two. Every effort will be turned to make
the new station useful. There is something worth
to the boys who are planning the
considering the social service question which
he will bring to the group.

The men will consult an old-fash-
ioned New England oyster stew dinner,
washing up with coffee.

Register at the Cage.

CALENDAR.
Tuesday, December 7.
Wednesday, December 8.
4.00, Hockey Practice at gym.
15, Gym Fencing Practice.
Basket Ball Practice.
