TRACK WORK STARTED

(Continued from page 1.)

Coach Kanesy stated that with a bunch of men like this in the Institute, who have at some time shown some spirit in athletics, we should have at least two hundred candidates out for the team. This list is not wholly complete, for several men have been forced through physical weaknesses to stop the strenuous exercises afforded by track work.

Coach Kanesy further said, "that it is quite possible in making up a list as large as this, that some men have been overlooked, but just because your name is not down do not think you are not wanted." He said, "a great many men are now in the Institute whom he knows have done track work outside in other schools before coming here and have not reported. All these men should come out and if they do so there is no reason why we should not show the alumni team in the Intercollegiate meet at New York. This statement was made at the Intercollegiate meet in 1894." The men are to practice in the gym on Mondays. Everyone come out, if they do so there is no reason why we should not show the alumni team. The statement was made at the Intercollegiate meet in 1894."

The men are to practice in the gym on Mondays. Everyone come out, whether or not you can run or walk, to help win the Intercollegiates next spring.

CORRECTION

In the Tech's summary of winter track sports it was stated that the track team would compete in the N. Y. A. C. track sports it was stated that the track team would compete in the N. Y. A. C. track sports it was stated that the track team would compete in the N. Y. A. C. track sports.
