RESOLVED that the students by their generosity this important development committee and all others through whose hands the students, be it known, has largely been vested in the Union. has been treated as a toy to something at our cost. By many, the Corporation and through the gifts of men the Union is a part of our life undertaken in our tioni and _equipment of the Union."

RESOLVED that a copy of these resolution be sent to the members of the Corporation, and to all other members, and let it be known that there is a great undertaking in the hands outside trying to work the combination lock.

COMMUNICATION

To the Editor of The Tech—

I understand that there is a committee, one member of which has charge of the Union social room each day. Is it not the duty of this committee to see that the publications which are submited to by the Union committee, are placed in the proper covers and left in the Union? The Tech gives to the Union a number of its exchanges for which files have been provided. These are delivered to the Cage and I should think it is then up to the committee in charge to put them on the file. But instead of this, when a fellow wants a current copy of a certain periodical or an issue of an exchange, does he find it? He does not. Why have been a little curious to know and this is the result.

The periodicals arrive on time and the papers are received from The Tech and both are left at the Cage. The members of The Tech who have charge of this matter told me that he left the papers at the Cage. I know for a fact that certain publications were sent, but not the duty of this committee to accept.

Of course this is only my personal view of the matter. If the committee can show that I am wrong, I am perfectly willing to admit it. One who likes to read.

The faculty of the Stevens Institute of Technology has announced three new prizes to be awarded to the senior class of the Stevens Institute. The subjects for excellence in which these prizes are offered differ widely. The Stimson Prize of fifty dollars is competed for by the students in Applied Technology. The Cyrus J. Lawrence Prizes for fifty and twenty-five dollars are awarded to the seniors most active in promoting student activities, in fostering a spirit of cooperation between the faculty and the student body and, in general, in contributing to the elevation of worthy ideals of student life.

THE "DOPESTER"

This, from the "Boston Post," Dec. 15, sounds good. "Technology will have a good track team this season and hopes, besides having a winning relay team, to make a good showing in the New England intercollegiates next spring. Come fellows, get out and help Kemaly hold to this statement."

The board track, on the Travington St end, is about as fast as any around Boston and all the institute splinters should try it out.

Ohio University is to hold a big indoor track meet in Madison Square Garden, New York, Tuesday, March 22 and are trying to arrange for a relay race between the B. A. A. and N. Y. A. teams. "Carl Gram, the former Technology track captain," may be one of those selected for the B. A. A. team if they accept.

"Oh you should," said the man on the inside of the cage to the man outside trying to work the combination lock.
