I will be put in the hands of the police Friday morning without a warrant. I am a suspect in a recent robbery.

Previous to that on the day when they came to our house, I think the news article was cut out in the school. That is, cut out tile news article—that is, cut out tile news article.

A thief was watched by Police Inspector White. The thief, who took a pair of bow-ties from the Vestry room, was later arrested by the police.

A motor car was stolen from the garage of the $50,000 home of Mr. and Mrs. Smith. The police are searching for the thief.

A new system of wireless telegraphy has been developed by Professor E. N. Vales. The system, which will be used for sending messages over long distances, is expected to revolutionize the field of communication.

The Institute possesses as good an equipment in civil engineering apparatus as any college in the United States. The division of the department has a full list.

Thirty xeroxed eggs in 22 minutes by Professor George C. Kenny. The eggs were baked in the Union last night set by George C. Kenny of Brookline. The method of baking has been adopted by the Student Union of the Union for the superseding of all other methods of baking eggs by a committee to see that the full list of sunshine apparatus was given to every xeroxed with students, who gathered around the table where Kenny sat and showed his efficiency in the science.

The lecture on Wireless Telegraphy by Prof. George W. Pierce of Harvard, at the Union tonight, was well attended by the Wireless Society. This will be an exceptional opportunity for the new and interested students in the science.

The lecture on Wireless Telegraphy by Prof. George W. Pierce of Harvard, at the Union tonight, was well attended by the Wireless Society. This will be an exceptional opportunity for the new and interested students in the science.

At the meeting of the Senior Portfolio Committee, held in the Union yesterday, was elected chairman, D. V. Williamson, treasurer, and C. C. Hall secretary.

In an address delivered to the Massachusetts Institute of Technology, President Draper took note of the importance of education in the development of the nation.

Professor Draper has called attention to the need for increased emphasis on the importance of education in the development of the nation.
